Re: Particulate Emissions Test: Three PVC Dryers (Permit #1840-00014)

Dear Mr. Moore:

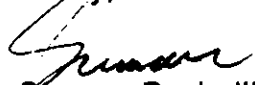

Enclosed you will find four copies of our report on the particulate emissions tests we conducted at your facility. The three sources tested were PVC Dryer #7, PVC Dryer #8 and the Fluidized Bed PVC Dryer. Based on our test results, all three sources were well below the allowable emissions limitation set by the State of Mississippi. Therefore, all three sources are operating in compliance with State Standards.

You will want to sign the report covers and send two copies to:

Mr. Danny Jackson
Mississippi DNR
P.O. Box 10385
Jackson, MS 39209

We certainly have enjoyed working with you. Please let us know if we can be of further assistance.

Sincerely,

G. Sumner Buck, III
President
