THE SARANAC LABORATORY FOR THE STUDY OF TUBERCULOSIS
OF
THE EDWARD L. TRUDEAU FOUNDATION

POST OFFICE BOX 551
7 CHURCH STREET
SARANAC LAKE, N.Y. --

December 14, 1937

Mr. Manfred Lowditch, Director
Division of Occupational Hygiene
Department of Labor and Industries
23 Joy Street
Boston, Mass

Dear Manfred:

Tony sent me a copy of a letter which he received from you on the subject of asbestosis. I replied and am enclosing a copy of that portion of my letter for your reference. I do not think the subject is closed but I would be surprised if we found evidence of a difference in the irritating properties of the various kinds of asbestos. As to progression of the disease, I am inclined to believe that the factor of infection is the one largely responsible for the cases that appear to have progressed.

With best regards,

Sincerely yours,

Roy
