From: Management Safety Committee

Memo

Environmental, Health and Safety Accountability

It is essential that all groups at the Corpus Christi Technical Center conduct their activities in accordance with Corporate and local ENVIRONMENTAL, HEALTH, & SAFETY policies. All managers and supervisors will be held accountable for the performance of their groups in regard to ENVIRONMENTAL, HEALTH, & SAFETY issues. Appraisals of all employees will include an evaluation of their performance in compliance with established policies and specific objectives as appropriate.

We all have an obligation to the general public, our neighbors, our co-workers, and ourselves to excel in these areas. In particular, personnel safety must be placed equal in importance to employee productivity, cost, morale, and quality.
