(916) 445-6900

LEGAL DEPT.

SEPT 16. 88

Carla D. Musico

September 5, 1988

Dear Interested Party:

The Health and Welfare Agency is no longer using its Proposition 65 mailing list to distribute information that is readily available to the public. Draft regulations and agendas are available in the California Regulatory Notice Register. Regulations are in Title 22, Division 2, Section 12000 et seq., of the California Code of Regulations. The same regulations are also published in Title 26, which contains other regulations on toxic substances.

The Agency will maintain a new mailing list for those who wish to comment on proposed regulations. To receive notices of proposed rulemaking action (which are also published in the Notice Register), you must specifically request in writing that your name be placed on the mailing list for proposed regulations from the Health and Welfare Agency.

Sincerely,

STEVEN A. BOOK, Ph.D.
Science Advisor to the Secretary

Recipients of the Monthly Special Review Docket Index:

The enclosed listing is an index to documents included in July and August in the docket for pesticides under Special Review.

Usually the index is produced each month. However, computer problems delayed the July index so this mailing includes an index for the past two months.

A copy of 40 CFR 154.15 is attached to describe the index, the docket, and the types of documents that are included in the docket.

We invite your comments or questions about the docket. Please contact me on (703) 557-3262.

Cordially,

Therese Murtagh

Therese Murtagh, Chief
Public Information Branch
Field Operations Division

VVV 000012079

§ 154.15 Docket for the Special Review.

(a) *Establishment of the docket.* When the Agency first notifies registrants privately that it is considering issuance of a Notice of Special Review for a pesticide, it shall establish a docket concerning that particular pesticide.

(b) *Contents of the docket.* For each pre-Special Review or Special Review, the docket shall contain:

(1) The Notice of Special Review, any Notice of Preliminary Determination, and any Notice of Final Determination.

(2) Any notice issued under § 154.21 or § 154.23.

(3) Any documents (other than information claimed to be confidential business information) referred to by the Agency in those notices as relied upon by the Agency in reaching its determination.

(4) Copies of all written comments or materials (other than information claimed to be confidential business information) responding to any notice furnished under § 154.21 or § 154.23 or submitted at any time during the Special Review process by any person outside of government.

(5) Any written response to the Notice of Preliminary Determination from the Secretary of Agriculture or the Scientific Advisory Panel.

(6) A transcript of all public meetings held by the Scientific Advisory Panel or conducted by the Agency for the purpose of gathering information.

(7) A memorandum describing each meeting between Agency personnel and any person or party outside of government which concerns a pending pre-Special Review or Special Review decision. Each such memorandum shall be based on notes taken at the meeting and shall specify the date and time of the meeting, the participants and their affiliations, who requested the meeting, the subject matter of the meeting, and the person who prepared the memorandum. Except for information claimed to be confidential business information, each memorandum shall describe fully and accurately all significant positions taken, arguments made, and facts presented by each participant in the meeting, and shall identify all documents, proposals, or other materials distributed or exchanged at the meeting. Any discussion of claimed confidential business information shall be identified in meeting notes and referenced in the memorandum.

(8) All comments, correspondence, or other materials concerning a pending pre-Special Review or Special Review

decision provided to the Agency by a person or party outside of government (other than information claimed to be confidential business information).

(9) All documents, proposals, or other materials concerning a pending pre-Special Review or Special Review decision, provided by the Agency to any person or party outside of government (other than information claimed to be confidential business information).

(c) *Assertion of confidential business information claims.* (1) Information, comments, data, or other written material submitted to the Agency concerning a Special Review may be claimed by the submitter to be confidential business information. The burden of identifying claimed confidential business information rests with the submitter, or, in meetings, with the participants who wish to assert a claim of confidentiality.

(2) To assert a claim of confidentiality for all or any part of a written submission concerning a Special Review, the submitter must furnish three copies of the material. Two copies must be complete, with claimed confidential business information clearly marked in the text. Items in the document that are claimed confidential should be numbered consecutively throughout the text. The third copy must have the claimed confidential business information excised from the text without closing up or paraphrasing the remaining text. The deletions should be consecutively numbered to correspond to the numbering of the complete copies. Each copy must be marked on the cover as to whether it contains claimed confidential business information.

(3) Any written material concerning a Special Review received by the Agency that is not marked as confidential will be deemed to be nonconfidential, and may be made available through the public docket or otherwise disclosed without prior notice to the submitter.

(d) *Placement of materials in the docket.* Any memorandum identified under paragraph (b)(7) of this section shall be placed in the docket within 10 working days of the subject meeting. Materials identified under paragraph (b)(8) of this section shall be placed in the docket within 10 working days of receipt by the Office of Pesticide Programs, or within 15 working days of receipt by the Office of Pesticide Programs if the submitter has asserted a confidential business information claim concerning the submittal. Mate-

rials identified under paragraph (b)(9) of this section shall be placed in the docket within 15 working days of transmittal to such person or party outside of government.

(e) *Index.* The Agency shall prepare and maintain a current index of all materials included in the docket. The index will include a list identifying, for each meeting between Agency personnel and a person or party outside of government for which a memorandum has been prepared, the date, the subject, participants, and person who requested the meeting. The index will also list any document included in the docket by its title, its source, its recipient, and the date it was received or provided by the Agency.

(f) *Access to the docket.* (1)(i) For each chemical in Special Review, the docket shall be available for public inspection and copying and its index kept current and made available to the public on request. The docket and index for any pesticide for which the Agency has issued a pre-Special Review notification under § 154.21 will only be made available for public inspection and copying following issuance of a proposed decision not to start a Special Review under § 154.23, a Notice of Special Review under § 154.25(c), or as otherwise specified in § 154.34.

(ii) The docket and index will be available at the Program Management and Support Division, in Rm. 236, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, from 8 a.m. to 4 p.m. Monday through Friday, excluding legal holidays.

(2) Information contained in the docket shall not be disclosed to the public to the extent that FIFRA or any other statute or regulation (including, but not limited to, 5 U.S.C. 552(b)(3) or (4)) prohibits its disclosure.

(3) The Agency will distribute a compendium of indices for new materials in the public docket by mail, on a monthly basis, to those members of the public who have specifically requested such material. The Agency will announce the availability of docket indices both annually in the *FEDERAL REGISTER* and in each *FEDERAL REGISTER* Notice concerning pre-Special Review or Special Review for specific pesticides. The Agency may also periodically require parties on the mailing list to renew their previous request for such materials.

Listing of Docket Documents

The attached listing is an index to selected documents included in the docket of the EPA Office of Pesticide Programs.

Docket Location

Documents in the docket are maintained by the EPA Office of Pesticide Programs on the second floor of Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, Virginia. Releasable documents are available for public review from 8:00 to 4:00 daily.

Copies of Documents

You can copy documents while you are visiting the public reading room. Or copies can be requested by writing to

Public Information Branch (TS-757C)
Office of Pesticide Programs
Environmental Protection Agency
Washington, D.C. 20460

To order a document, you must give the document number and the name of the pesticide that the document concerns.

Release Status of the Documents

Each document has been assigned a number with the prefix "D" for "docket." Each document number also has the suffix "A", "B", or "C". This suffix gives the release status of the document.

Documents with suffix "A" are automatically available to anyone.

Documents with suffix "C" are claimed as confidential by the submitter. To release a "C" document, we must first give the submitter an opportunity to provide written comments substantiating the confidentiality claim. The EPA Office of General Counsel must then determine if the document is entitled to confidential treatment.

Submit an Affirmation of Non-multinational Status for "B" Documents

Documents with suffix "B" are releasable to those who submit an Affirmation of Non-multinational Status. A copy of the affirmation form is attached. When submitting an affirmation form, identify each document you want by including the document number and the name of the pesticide it concerns.

AFFIRMATION OF NON-MULTINATIONAL STATUS

This affirmation is required by the EPA interim procedures to implement Section 10(g) of the Federal Insecticide, Fungicide, and Rodenticide Act. The text of Section 10(g) is given on the attached page for your reference.

I have requested access to information submitted by an applicant or registrant under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.) to the Environmental Protection Agency. I hereby affirm that:

(1) I am not a business, or other entity engaged in the production, sale, or distribution of pesticides in countries other than the United States or in addition to the United States; and I am not an employee or agent of any such business or entity;

(2) I do not seek access to the information for purposes of delivering it or offering it for sale to any such business or entity or to any of its employees or agents;

(3) I will not purposefully deliver the information (or negligently cause it be delivered) to any such entity or to any of its employees or agents.

I am aware that I may be subject to criminal penalties under 18 U.S.C. 1001 if I have made any statement of material facts knowing that such statement is false or if I willfully conceal any material fact.

Revised 10/84

VVV 000012082

**The Federal Insecticide, Fungicide, and Rodenticide Act
as Amended**

Public Law 92-516 October 21, 1972 as amended by
Public Law 94-140 November 28, 1975
and Public Law 95-396 September 30, 1978

7 USC 136a

"SEC. 10. PROTECTION OF TRADE SECRETS AND OTHER INFORMATION.

P.L. 95-396,
92 Stat. 831.

"(g) Disclosure to Foreign and Multinational Pesticide Producers.—

"(1) The Administrator shall not knowingly disclose information submitted by an applicant or registrant under this Act to any employee or agent of any business or other entity engaged in the production, sale, or distribution of pesticides in countries other than the United States or in addition to the United States or to any other person who intends to deliver such data to such foreign or multinational business or entity unless the applicant or registrant has consented to such disclosure. The Administrator shall require an affirmation from any person who intends to inspect data that such person does not seek access to the data for purposes of delivering it or offering it for sale to any such business or entity or its agents or employees and will not purposefully deliver or negligently cause the data to be delivered to such business or entity or its agents or employees. Notwithstanding any other provision of this subsection, the Administrator may disclose information to any person in connection with a public proceeding under law or regulation, subject to restrictions on the availability of information contained elsewhere in this Act, which information is relevant to the determination by the Administrator with respect to whether a pesticide, or any ingredient of a pesticide, causes unreasonable adverse effects on health or the environment.

Records.

"(2) The Administrator shall maintain records of the names of persons to whom data are disclosed under this subsection and the persons or organizations they represent and shall inform the applicant or registrant of the names and affiliation of such persons.

"(3) Section 1001 of title 18 of the United States Code shall apply to any affirmation made under paragraph (1) of this subsection.

VVV 000012083

EXPLANATION OF THE AFFIRMATION OF NON-MULTINATIONAL STATUS

Pesticide information that is responsive to your recent FOI request includes information that was submitted to EPA by pesticide applicants or registrants under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). In the 1978 amendments to FIFRA, Congress expressly limited who may receive this information and how it may be used by recipients. These limits, expressed in FIFRA section 10(g), were imposed by Congress to protect registrants of pesticides in the U.S. against unauthorized use of their health and safety data by competitors to obtain pesticide registrations in foreign countries. (Those who obtain pesticide registrations in foreign countries are called "Foreign or Multinational Pesticide Producers" in section 10(g), abbreviated "Multinational" herein.)

FIFRA section 10(g) therefore requires EPA to avoid knowingly disclosing this information to a Multinational, or to agents or employees of a Multinational. Numbered paragraphs (1) and (2) of the "Affirmation of Non-Multinational Status" are designed to allow EPA to implement this requirement. Section 10(g) also requires each person who seeks to obtain this information from EPA to affirm that he or she does not intend to, and will not purposefully or negligently deliver (or cause delivery of) the information to a Multinational. Numbered paragraph (3) of the Affirmation is designed to allow EPA to implement this requirement. The remainder of this explanation is provided to further assist you in understanding section 10(g) and the implications of signing the Affirmation.

Section 10(g) makes it unlawful for a person requesting registrant-submitted pesticide information to furnish a false or misleading Affirmation of Non-Multinational Status to EPA; such violations are punishable under 18 USC §1001. Thus, for example, it is EPA's position that it would be unlawful for a person to execute the Affirmation while having the intent to publish (or otherwise to deliver in any way to a Multinational in its entirety) a previously unpublished toxicity study submitted by a registrant. This is because the information delivered likely could be used to satisfy a data requirement imposed by a foreign country as a condition of producing, distributing, selling, shipping, or using the product in that country. However, section 10(g) would not restrict an intent to publish or deliver brief excerpts from such information or summaries or critiques of it, identified as such, since these likely would not be useful in satisfying data requirements imposed by other countries. Of course, the prohibition does not apply to publication or delivery of information that is already freely available to the public (such as data that has been published) or to publication of data with the consent of the registrant that submitted it to EPA.

It is less clear whether the statute imposes any other duties or prohibitions on persons once they have received the information from EPA, and EPA has taken no position on this issue. Some firms who have submitted data to EPA, however, argue vigorously that section 10(g) governs the use or disclosure of data by persons who have obtained it from EPA. Accordingly, you should be aware that if your disclosure of data obtained by you from EPA results in its becoming available to a Multinational (in a form that enables it to be used to satisfy foreign data requirements), it is possible that the firm that submitted it to EPA may seek relief against you in court, and may argue in court that you were required by section 10(g) to guard against disclosing data to a Multinational or allowing such disclosure. You may therefore wish to take steps to avoid inadvertent disclosure of the data by keeping it in a secure place. Before publishing it or deliberately disclosing it to others, you may wish to seek legal advice.

Memorandum. 09/15/86. "Aldicarb: Calculation of Statistical Confidence Limits of Residue Data." 7 pages.
- D- 9377A Garbus, J., EPA
Memorandum. 10/20/86. "Aldicarb Special Review. Statistical Evaluation of Residue Data for R.A.C.'s and for Ground Water." 3 pages.
- D- 9378A Levy, Richard, EPA
Memorandum. 10/21/86. "Aldicarb: Calculation of Upper 10, 5, 1 Percentile of Residue Data for Potatoes, Citrus and Drinking Water." 8 pages.
- D- 9379A EPA,
Undated. Internal documents and additional data for county approach.
- D- 9380A EPA,
Undated. Internal documents and additional data for crop/site - specific factor.
- D- 9381A EPA,
Undated. Internal document for Heath Region approach.
- D- 9383A Davis, Warren, Rhone-Poulenc AG Company
Letter. 07/19/88. Information regarding well water in Maine. 15 pages.
- D- 9384A Davis, Warren, Rhone-Poulenc AG Company
Letter. 07/19/88. Information regarding Texas overexposures to Aldicarb. 2 pages.
- D- 9385A EPA,
Report. Undated. "Summary of Preliminary Benefit Analysis of Aldicarb Use on Commercially Grown Ornamental/Horticultural Crops." 7 pages.
- D- 9386A EPA,
Report. Undated. "Preliminary Benefit Analysis of Aldicarb Use on Sugarbeets." 19 pages.
- D- 9398A Jansson, Erik, Nat'l Network to Prevent Birth Defects
Letter. 08/10/88. Expresses concerns about Agency position. 6 pages.

VVV 000012091

Public Docket

Documents entered between 07/01/88 and 08/31/88

- D- 9399A Bartle, Kenneth, Holly Sugar Corporation
Letter. 08/15/88. Favors the use of Aldicarb. 1 page.
- D- 9400A Barnett, Paul, Salinas, California
Letter. 06/28/88. Requests copies of proposed regulations for the control of Aldicarb. 2 pages.

CAPTAN - SR

- D- 9363A Mountfort, Richard, EPA
Letter. 8/10/88. Discusses environmental assessment data. 1 page.
Enclosure: D-9364A.
Sent to Mueller, Anne, ICI Americas, Inc.
on 08/10/88
- D- 9364A Mastradone, Paul, EPA
Memorandum. 8/1/88. Review of hydrolysis and photodegradation studies on Captan, EPA Registration Number 239-1246. Studies have MRID's 402081-01 and -02. 14 pages.

CARBOFURAN - SR

- D- 9343A Schaefer, William Donald, Governor, State of Maryland
Letter. 6/10/88. Expresses concern about bald eagle deaths. Urges expedited review of Carbofuran. 2 pages.
- D- 9350A Mullins, John, State of Louisiana
Memorandum. 7/21/88. Subject: "Cattle Egret Poisoning, Avoyelles Parish, Louisiana." Describes death of approximately 200 cattle egrets in a field that had been treated with Furadan. 2 pages.
- D- 9388A Carlson, Donald, FMC Corporation
Letter. 8/9/88. Provides response to D-7747 "Do Some Insecticides Currently Used for Grasshopper Control Reduce Productivity of Burrowing Owls." 1 pg. Enclosure: 6/20/88 letter to Agriculture Canada. 20pg.

DAMINOZIDE - SR

- D- 9356B Uniroyal Chemical,
MRID 407402-00,-01. 12-month Interim Sacrifice - 2-year UDMH Oncogenicity Study in Mice.

DICHLORVOS - SR

- D- 9340A Fuchs, Samuel, University of Idaho
Letter. 5/31/88. 1 page. Attachments: Preliminary data on dichlorvos application and use in the state of Idaho. 6 pages. See follow-up information, D-9274A.

Public Docket

Documents entered between 07/01/88 and 08/31/88

- D- 9344A Rambo, George, National Pest Control Association
Letter. 7/5/88. 1 page. Enclosure: "Use Profile and Benefits Information for Dichlorvos in the Structural Pest Control Industry." 8 pages.

- D- 9345A Meeting held on 06/30/88
Meeting requested by Jellinek, Steven
Jellinek, Schwartz
Subject: Cancer warning statements on DDVP label. (An outline of Mr. Jellinek's remarks is attached to the meeting minutes. 6 pages. See items distributed: D-9346A and D-9347A.)
Participants: Jellinek, Steven, Jellinek, Schwartz
Allemand, Diane, Jellinek, Schwartz
Mennear, John, Campbell Company
Campt, Douglas, EPA
Barton, Anne, EPA
Farber, Ted, EPA
Tinsworth, Rick, EPA
LaRocca, George, EPA
Kramer, Richard, EPA
Stasikowski, Margaret, EPA
Houswirth, Judith, EPA
Rispien, Amy, EPA
Saito, Esther, EPA
Auerbach, Janet, EPA

- D- 9346A Mennear, John, Campbell University
Paper. 6/30/88. "A Review of the Interpretation of the NTP Toxicology and Carcinogenesis Studies of Dichlorvos." 25 pages. (Same as MRID 407440-01.)
From Jellinek, Steven, Jellinek, Schwartz
on 06/30/88

- D- 9347A Leafe, Thomas, Fermenta Animal Health
Paper. 6/30/88. "Stability of DDVP in Drinking Water." 5 pages. (Same as MRID 407440-02.)

- D- 9361A Amvac Corporation,
MRID 407440-00, -01, -02, and -03. MRID's 407440-01 and -02 are the same as D-9346 and -9347. MRID 407440-03 is a review of NTP Study Interpretations.
From Jellinek, Steven, Jellinek, Schwartz
on 07/20/88

- D- 9387A Enomoto, Makoto, Biosafety Research Center, Japan
Paper. Undated. "Studies on Carcinogenicity of DDVP (2,2-dichlorovinyl dimethyl phosphate) mixed in drinking water in rats." 30 pages.

VVV 000012093

Public Docket

Documents entered between 07/01/88 and 08/31/88

EBDC - SR

D- 9348A Meeting held on 08/03/88

Meeting requested by Panetta, Joseph
Pennwalt Corporation

Subject: Pennwalt Chemical's request for an extension of time to complete maneb apple residue and processing and almond residue studies.

Participants: Panetta, Joseph, Pennwalt Corporation
Bael, Valerie, EPA

D- 9355B NPC, Incorporated, Metiram Task Force

MRID 407310-00,-01,-02. Storage Stability of Metiram and ETU in Frozen Apple Processed Commodities, Wet and Dry Apple Pomace, Frozen Potato Processed Commodities, Wet and Dry Potato Peel.

D- 9358B Rohm and Haas,

MRID 407680-00,-01. Commercial Tomato Processing Study with Tomatoes Treated with Mancozeb.

INORGANIC ARSENICALS - SR

D- 9327A EPA,

Federal Register notice. 6/30/88. Inorganic Arsenicals; Intent to Cancel Registrations for Pesticide Products Registered for Non-Wood Preservative Use; Conclusion of Special Review. 8 pages.

D- 9330A Reference 1 to the 6/30/88 Federal Register notice.

D- 9331A EPA,

Bibliography from 6/30/88 Federal Register notice. Docket numbers to references are noted on this copy. 1 page.

D- 9332A Reference 2 to the 6/30/88 Federal Register notice.

D- 9333A Reference 7 to the 6/30/88 Federal Register notice.

D- 9334A Reference 10 to the 6/30/88 Federal Register notice.

D- 9335A Reference 11 to the 6/30/88 Federal Register notice.

D- 9336A Reference 12 to the 6/30/88 Federal Register notice.

D- 9337A Reference 13 to the 6/30/88 Federal Register notice.

Public Docket

Documents entered between 07/01/88 and 08/31/88

- D- 9338A Reference 15 to the 6/30/88 Federal Register notice.
- D- 9339A Reference 16 to the 6/30/88 Federal Register notice.
- D- 9365A Dumas, Ronald, EPA
Memorandum. 5/2/88. "Minor Uses of Lead Arsenate and Ant Bait Use of Sodium Arsenate." 2 pages. Attachment: 3 pages.
- D- 9366A Cannarella, Ronald, EPA
Memorandum. Undated. "Chemical alternatives to the insecticide uses of lead arsenate." 1 page.
- D- 9367A Wason, Suman, Massachusetts Poison Control System
Article. 10/81. Clinical Toxicology Review. "Arsenic." 2 pages.
- D- 9368A Sochard, Minnie, EPA
Memorandum. 10/25/85. "Mutagenicity of Inorganic Arsenicals - Non-Wood Uses. EPA Response to Rebuttals by Pennwalt Corp. and Hazleton Laboratories America Inc." 7 pages.

LINURON - SR

- D- 9357B DuPont,
MRID 407301-00,-01. Supplement to Confined Accumulation Study on Rotational Crops, MRID 401041-01.
- D- 9359B DuPont,
MRID 407685-00,-01. Metabolism of 14C-Linuron in Field-Grown Soybean Plants.
- D- 9360B DuPont,
MRID 407686-00,-01. Metabolism of 14C-Linuron by Potato Peel.
- D- 9393A EPA,
Federal Register notice. 8/17/88. Linuron; Preliminary Determination to Conclude the Special Review. 8 pages.

TRIBUTYLtin - SR

- D- 9351B M&T Chemicals,
MRID 407518-00,-01. Measurement of Butyltin Species in Water.
- D- 9352B International Paint,
MRID 407517-00,-01. Supplemental data supporting existing TBT release rate studies.

VVV 000012095

Public Docket

Documents entered between 07/01/88 and 08/31/88

- D- 9353B M&T Chemicals,
MRID 407265-00,-01. TBT - Film Thickness, Life of Paint and Additional Release Rate Information, Validation of MRID 404341-05.
- D- 9391B M&T Chemicals,
MRID 407518-00,-01. Measurement of Butyltin Species in Water.
- D- 9392A Bailey, David, Environmental Defense Fund
Letter. 8/5/88. Submits package of materials provided by EDF to the Virginia State Water Control Board for consideration in establishing a TBT water quality standard. 3 pages. Attachments: 43 pages.
