

Question

**Which car owner
can fill
all his engine gasket needs
with NAPA Gaskets?**

Both of Them!

When we say NAPA gaskets offer the best coverage for domestics and imports, we're not just talking about the highways and biways. NAPA High Performance Gaskets are designed and manufactured to the latest standards of heavy duty racing technology to get

the job done down the quarter-mile, around the twisties, or out on the high-banks.

So, whatever your customer's gasket needs, tell them to see you first... they won't need to go anywhere else.
