Dry Mill Dusts

Peter Kostic, W. C. Nordin, J. D. Riggleman,
R. W. Sterrett, O. F. Stewart

03628022

Wes has completed several consistent sets of readings on the Dry Mill. He is now in a position to continue the readings on a monthly basis. We are requesting Mr. Wake, State Board of Health, Helena, Montana, to come during March. He will check Wes Nordin again at that time.

The February readings are as tabulated below. The readings agree quite well with the 1967 readings taken by Robert Vinion.

Floor 6	12.5 mppcf
Floor 5	11.1 mppcf (sweeper in area)
Floor 4	7.5 mppcf
Floor 3	8.6 mppcf
Half-Deck	11.1 mppcf
Floor 2	8.2 mppcf
Floor 1	3.2 mppcf
