

1 at the request of lawyers, have you also over the
2 years and up through the present done teaching?

3 A Yes.

4 Q Could you tell us, you currently do teaching
5 at the University of California at Berkeley?

6 A Yes.

7 Q What kind of courses do you teach there?

8 A Essentially these courses in asbestos
9 abatement. I teach the courses on asbestos sampling
10 and analysis. And about every month or two, I give a
11 two-hour lecture on that topic to contractors who are
12 going to be going into this field or people who are
13 going to become consultants in asbestos, and I
14 teach -- intermittently there is a three-day course we
15 teach technicians who are going to be doing this full
16 time for a living.

17 I teach intermittently classes on general
18 industrial hygiene and on industrial hygiene sampling
19 and analysis for other things than asbestos.

20 Q Is it -- now, that is at the University of
21 California, Berkeley.
