Dear [REDACTED]

Yes sure! We were in a rush to commit our remaining REACH consulting budget by 27 November so we came up with these issues to be further investigated. However, other issues of interest might pop-up later once we dig more into the topic. Nonetheless, our aim is not to get paralysis by analysis and keep the Annex XV fit-for-purpose. Tricky balance...

If you think about other issues to pay particular attention, thanks for sharing!

Note: we are finalising the requests this week. Hopefully the consultants will accept all the tasks with the timeline we propose.

Have a good day too!

Best regards,

[REDACTED]

Subject: Update on fire-fighting foams

Dear [REDACTED]

Could you please make a short summary of the information you gave today on the preparation of the restriction dossier and send it via e-mail, also to [REDACTED] In this way, we are all informed.

Many thanks and have a nice day

[REDACTED]
