Workmen's Compensation Board of British Columbia

March 10, 1964
Dictated March 9, 1964

Dr. Robert A. Kehoe
Professor of Preventive Medicine
University of Cincinnati
CINCINNATI, OHIO

Dear Doctor Kehoe:

Re: [REDACTED]

Claim #63071596

You may remember previous correspondence with me when I was associated with the Consolidated Mining and Smelting Company of Canada at Trail, B. C. At that time I was engaged partly on the prevention of lead absorption.

The present letter pertains to a claim on the above named workman for lead poisoning, adjudication of which has come to an impasse. Your opinion on this claim, I am sure, would do much to hasten a decision.

If you would be willing to review this claim and give an opinion on it a photostat of the file could be in your hands shortly after receiving your reply.

If your reply is favourable you will hear from the Chief Medical Officer of the Workmen's Compensation Board of British Columbia and receive the information necessary for your review.

Sincerely yours,

WSH:pb

W. S. Huckvale, M. D.
