Byron,

It was a pleasure to meet you this morning, and thank you again for fitting us into your schedule during this busy time. As a technology provider with significant capability in the latest aerodynamic technologies we are very supportive of the alignment between these technologies and GHG - Phase 2. If we can be of service by providing information to others on your staff or at the EPA in general please do not hesitate to provide our contact information or reach us through Aaron.

Best,

Steve
