

1 A Either way.

2 Q Either way. You are accommodating, sir.

3 What medicines are you taking today?

4 A I take quite a few medicines.

5 Q Okay.

6 A I don't remember the brand names of them
7 though. I take breathing pills, pain pills, and I
8 have to take pills to keep my bowels loose, appetite
9 pills.

10 Q Let me ask you, you have a device that is
11 attached to your left hip.

12 What is the purpose of that device?

13 A This device is to inject the pain directly
14 into my skin just about every hour to keep the pain
15 down.

16 If I have additional pain, it has a button
17 on it that I can push to give myself an extra
18 injection every half hour.

19 Q How long have you had to wear that device?

20 A I have had it on probably about five weeks
21 now. Prior to that I was taking capsules.
