SUBJECTS: RED LEAD TECHNICAL
COMMITTEE MEETING
AGENDA - ITEM 4

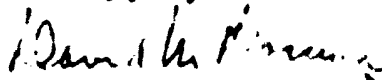

LETTER FROM THE
FARBEIL CO.

To Members of the Red Lead Technical Committee:

Please find attached a summary of the correspondence I have had on the proposed test project on 1-coat machinery enamels. This will be discussed under Item 4 of the agenda sent you on January 12.

I am also attaching a copy of a letter I have received from The Farboil Company. I would appreciate your giving this some thought so that it can be discussed at the meeting.

Sincerely yours,

David M. Borina
Secretary, Red Lead Technical Committee

SUBJECT: AGENDA FOR MEETING

To Members of the Red Lead Technical Committee:

As previously announced, there will be a meeting of the Red Lead Technical Committee of the Lead Industries Association on Tuesday, January 27, 1959, at 9:30 A.M. in the offices of the Association.

An agenda follows:

1. Approval of minutes of previous meeting of September 29, 1958.
2. Review of 1958 field activities and a discussion of the direction to be taken during 1959.
3. Should the galvanized paint, L.I.A. 9-2 be used as a subject in one or more ads in "Engineering News-Record" and "Marine Engineering/Log."
4. Proposed test project on 1-coat machinery finishes - Summary of replies received by secretary to his letter requesting specification data from machinery manufacturing companies, Government agencies, toll road authorities and highway departments. (Will be sent to committee prior to meeting.)
5. Paper by Owen Shobe for presentation before the Bridge Division of AASHTO.
6. Examination of quart sample of L.I.A. No. 2612 paint for shelf life. Sample was left in secretary's office at last meeting on September 29, 1958.
7. "Lead Titanate Paints in Holland." - Discussion of this paper which appeared in the December, 1958, issue of "Paint and Varnish Production."
8. Testing procedure to be followed in placing paints prepared by The Glidden Co. on exposure. The paints to be tested were outlined at the last meeting.

Red Lead Technical Committee

-2-

January 12, 1959

AGENDA (CONTINUED)

9. Secretary's report on his attendance at the Building Research Institute meeting on Field Applied Prints and Coatings.
10. Discussion of comments received to the secretary's letter of October 21, 1958, on a Red Lead Technical Letter involving a compilation of all previous "Letters."
11. Report by the secretary of his efforts to have L.I.A. 9-2 paint for galvanized surfaces included in a brochure being prepared for general distribution by a committee representing the National Paint Varnish and Lacquer Association, the American Zinc Institute, and the American Iron and Steel Institute.
12. Discussion on the possibilities of placing again on test for future use the galvanized iron test print that showed up well in L.I.A. Project 88.
13. Correspondence received by secretary.
14. New business.

Sincerely yours,

*David M. Bortina*David M. Bortina
Secretary, Red Lead Technical Committee
