

1 one-half chrysotile.

2 Assuming those facts to be true, Doctor, do
3 you have an opinion, to a reasonable degree of medical
4 certainty, as to which, if any, exposures to Owens-
5 Corning Fiberglas Kaylo pipecovering and block were
6 substantial contributing factors to the development of
7 Mr. Vandergucht's peritoneal malignant mesothelioma?

8 A Yes, sir, and, again, for the same reasons.
9 It is my opinion that all of those exposures
10 contributed to the development of this cancer.

11 Q And the basis for that opinion would be as
12 you previously expressed?

13 A As I previously expressed.

14 Q Doctor, you have in the past reviewed cases
15 for me concerning asbestos-related disease?

16 A Yes, sir.

17 Q And you have reviewed cases for our office?

18 A Yes, sir.

19 Q And when you review those cases, do you
20 charge a fee, Dr. Gabrielson?

21 A Yes, sir.
