Any response from
Japan or from Burks

I AM INTERESTED IN OBTAINING INFORMATION FROM KANEGAFUCHI RELATED TO YOUR EXPERIENCE USING COPPER CHLORIDE IMPREGNATED CATALYST IN THE OXY VENT CLEAN-UP REACTOR R-304. I HAVE BEEN IN TOUCH WITH BILL BURKS OF STAUFFER CHEMICAL COMPANY RELATED TO OBTAINING THIS INFORMATION. MR. BURKS INDICATES THAT HE HAS BEEN UNABLE TO GET A RESPONSE FROM KANEGAFUCHI RELATED TO THE R-304 CATALYST SYSTEM, ALTHOUGH HE HAS WRITTEN TWO LETTERS AND SENT TWO TELETYPES RELATED TO THIS SUBJECT. MR. BURKS SUSPECTS HE MAY NOT HAVE THE CORRECT MAILING ADDRESS OR TELEX NUMBER FOR KANEGAFUCHI. IF YOU WOULD PLEASE, TELETYPE MR. BURKS YOUR CORRECT MAILING ADDRESS AND TELETYPE NUMBER SUCH THAT HE CAN CONTACT YOU RELATED TO THE R-304 INFORMATION. IF YOU WOULD PREFER TO COMMUNICATE DIRECTLY WITH ME ON THE R-304 CATALYST SUBJECT, PLEASE LET ME KNOW AND I WILL WRITE YOU DIRECTLY ON THE QUESTIONS WE WOULD LIKE INFORMATION ON.

ATTENTION: Mr. K. Kawasaki

Dear Mr. Kawasaki,

During my visit last year you were working on a development to use Harshaw type oxychlorination catalyst in R-304 instead of alumina. As I recall your preliminary test results looked quite promising and you planned to load one of your commercial R-304 reactors.

I am very interested in the outcome of your work and would appreciate word from you. If this development is commercial I would appreciate whatever you may have as to performance and analytical results.

In case you have not been advised, Mr. R. P. Obrecht is now retired from Stauffer and I will be handling most of Mr. Obrecht's duties as regards correspondence with associates such as yourself.

Kindest personal regards,

A handwritten signature in dark ink, appearing to read "W. M. Burks, Jr.", with a checkmark to the left.

W. M. Burks, Jr.
