Attention: Mr. Richard W. Baum

RE: (Deceased) v. Sherwin-Williams
S.I.S. File: L9717-86-1
Date of Alleged Accident: 9/17/86

REDACTED

Dear Mr. Baum:

Please find enclosed an Application for Adjustment of Claim filed on the above-stated matter as well as our file contents. Please file an appearance on behalf of Sherwin-Williams and do what is necessary to protect their interests.

Please note that this case involves an individual who allegedly died as a result of continuous asbestos exposure while working for Sherwin-Williams as a pipe fitter. Please note further that the Application for Adjustment of Claim was Sherwin-Williams first knowledge of this alleged injury. Apparently, died on 9/17/86. It also appears that this individual and his attorney have numerous companion cases that are listed on a page attached to the Application for Adjustment of Claim. They are files #89 WC 44137 thru 89 WC 44158. Our case is file #89 WC 44136.

Unfortunately, I have no further information on this claimant or his alleged injury at work. As is indicated in Mr. Colangelo's October 17, 1989 letter, please contact opposing counsel and obtain additional medical information connecting the relationship between death and his employment. Also, please attempt to obtain the death certificate as well as his marriage certificate so that we can substantiate that is in fact his legal widow.
