

LEAD INDUSTRIES ASSOCIATION, INC.

292 MADISON AVENUE

NEW YORK 17, N. Y.

April 11, 1962

SUBJECT: NOTICE OF MEETING
AND AGENDA

To Members of the Lead Pigments Technical Committee:

There will be a meeting of the Lead Pigments Technical Committee of the Lead Industries Association on Tuesday, April 24, 1962, at 9:30 A.M., in the offices of the Association.

An agenda for the meeting follows:

1. Approval of minutes of previous meeting of January 16, 1962.
2. Copy for Lead Pigment Newsletter Ad No. 3. There have been conflicting viewpoints relative to the suggested copy for this ad sent to committee members on February 28, 1962.
3. Discussion of subject material for future Lead Pigment Newsletter Ads.
4. Yellow Traffic Marking Paint - Report of a visit to the Vision Conservation Institute, Philadelphia, Pa. by your secretary in company with Matthew Broderick, Solvay Process Division, Allied Chemical Corporation, Syracuse, N.Y.
5. Leaded Aluminum Paints - Discussion of formulation and procedures for a field test program on leaded aluminum paints.
6. Paints for Galvanized Surfaces - Clem Lominata has reported that L.I.A. Formula 304 test panels are still in good condition after 114 months exposure. It has been suggested that a paper based on this project be prepared.
7. Steel Structures Painting Council - Report by Dr. Carrick on the recent annual and technical meetings of S.S.P.C.
8. Report by Committee members on their progress in the preparation of assigned sections of the Pigment Manual.
9. New Business.

Sincerely yours,

W. H. L. L. L. L.
Secretary, Lead Pigments Technical Committee
