Subject: Friday's QA call

Thank you all for the time you spent today on conference call to discuss QA/project management for the Shanghai Health Study.

Here are the action items I wrote down;

Send the 3 study protocols to Tony - Bruce
Set up QA Team conference call with Pls, Gail, in early August - Bruce
Gail to send Tony the data flow diagrams for each protocol.
Gail to send size of SHS database to Tony.
Gail to send data management plans and/or statistical analysis plans (each protocol?) to Tony.
Gail will try to show the database to Tony in late August in Philadelphia.
Tony to develop draft RFP by end of August.
API to respond to draft RFP in early September.
Pharm-Olam to respond to final RFP in mid-September.
