

1 Owens-Corning annually from 1939 to the present for
2 research of the relationship between exposure to
3 asbestos dust fibers and/or products and any pulmonary
4 pathology, and identify each person or organization to
5 whom the expenditure or contribution was made, and the
6 response was none.

7 The next interrogatory is state whether
8 prior to 1970 Owens-Corning ever had any labor
9 inspectors or persons from Owens-Corning go to the
10 jobsites or other areas where their asbestos-
11 containing products were being used or installed to
12 make dust level counts, and their answer was no. No
13 such visits were made.

14 They were asked in interrogatory whether any
15 trade organization, association or any entity to which
16 they belong performed studies, tests, research,
17 recommendations, suggestions, seminars, symposia,
18 and/or speeches conducted or made which concerned or
19 discussed, addressed or dealt with alleged or possible
20 actual alleged or possible health hazards associated
21 with exposure to asbestos; and their answer was to the
