

***THE
MINE VENTILATION
SOCIETY OF
SOUTH AFRICA***

**VOLUMES 32 – 41
1979 – 1988**

**CONSOLIDATED INDEX
OF THE JOURNAL**

Introduction

One of the principal objectives of our Society is to disseminate knowledge, and the main way in which this is achieved is in our monthly Journal.

Access to the articles both by subject and author is considerably enhanced by the availability of a ready reference and for this reason the Society has published a Consolidated Index covering each decade since the inception of the Journal. Previous Indices have covered 1948 — 1957, 1958 — 1968 (eleven years) and 1969 — 1978.

This Consolidated Index is the fourth published by the Society and covers Volumes 32 — 41 (1979 — 1988).

S. J. BLUHM
President 1988/1989

I. SUBJECT INDEX	2
II. AUTHOR INDEX	15
III. ABSTRACT INDEX	29
IV. STUDENTS AND EXAMINATION NOTES	29
V. BOOK REVIEWS	29

VOL. 32	1979	VOL. 37	1984
VOL. 33	1980	VOL. 38	1985
VOL. 34	1981	VOL. 39	1986
VOL. 35	1982	VOL. 40	1987
VOL. 36	1983	VOL. 41	1988

SUBJECT INDEX

1. ACCLIMATIZATION AND HEAT STRESS	2
2. COLLIERIES	2
3. COOLING/REFRIGERATION	3
4. DUST	5
5. DUST FILTRATION	6
6. DUST SAMPLING	6
7. FANS	6
8. FIRES	6
9. GASES	7
10. HEAT AND TEMPERATURE	8
11. ILLUMINATION	9
12. MECHANIZATION	9
13. MISCELLANEOUS	10
14. NOISE	11
15. PRESIDENTIAL ADDRESSES	11
16. PSYCHROMETRY	12
17. SAFETY	12
18. VENTILATION	12
19. WATER	14

Compiled, designed and produced by Melanie Low Communications CC.

I. SUBJECT INDEX

	Vol.	No.	Page
1. ACCLIMATIZATION AND HEAT STRESS			
A guide to the measurement and assessment of heat stress in gold mines			
Authors: J. M. STEWART and A. WHILLIER	32	9	169
Errata:	32	11	223
Heat acclimatization: perspectives and trends			
Authors: A. J. KIELBLOCK, P. C. SCHUTTE, N. B. STRYDOM	35	7	53
Heat acclimatization, practices and procedures: an appraisal			
Authors: P. C. SCHUTTE and A. J. KIELBLOCK	39	8	105
The effect of clothing on heat stress in mining environments			
Author: A. I. MURRAY-SMITH	40	3	37
Acclimatization of underground labour			
Author: "SHAFT TALK"	41	10	179
2. COLLIERIES			
Use of underground auxiliary and booster fans in British coal mines			
Author: ANONYMOUS	32	9	190
Some further thoughts on colliery fires and the weather			
Authors: C. J. FAUCONNIER and J. D. R. BEUKES	32	11	209
The determination of optimal gas sampling times and/or locations for sampling from sealed-off areas in collieries.			
Author: C. J. FAUCONNIER	33	10	169
Extracts from the Annual Ventilation Report for Collieries			
For the year ending September 1979	34	4	67
For the year ending September 1980	34	10	168
Ventilating a subsidence in coal			
Author: P. J. YSSEL	34	4	72
A review of ventilation practice on South African collieries (Presidential Address)			
Author: N. THORP	34	11,12	194,209
Ashfilling at Springfield Collieries			
Author: J. W. JORDAAN	34	12	217
A proposed code of practice for the sealing of old workings in collieries			
Author: P. KING	35	5	33
Extracts from the Annual Ventilation Report for Collieries for the year ending September 1981			
.....	35	10	101
A method for routine dust sampling in collieries			
Authors: H. H. E. SCHRÖDER, J. A. L. KRÜSS and A. J. P. van WYK	36	4	33
Controlling dust and gas in the face area: operating experience with low seam continuous miners			
Author: C. J. BEUKES	36	8	74
Spontaneous combustion: its early detection and the latest means of combating it in the Western Area			
Authors: W. HIGHTON and J. M. COOPER			
Summary and Comment by: W. HOLDING	36	8	77
Controlling dust and gas in the face area: operating experience under ultra low-seam conditions			
Author: S. P. DAFT	37	1	9
Protection with stonedust barriers on coal conveying roads			
Author: P. J. YSSEL	37	3	25
Die uitwerking van verskillende ventilasiesistels op die gas- en stofkonsentrasie in 'n delwersfront			
Skrywer: W. J. J. COETZER	37	5	49
Ventilation problems experienced in the pocket and fender method of pillar extraction at Springfield Colliery			
Authors: J. D. R. BEUKES and G. HUTCHINSON	37	7	73
The early detection of inflammable gas at the working face.			
Author: E. R. STEYN	38	7	81

	<i>Vol.</i>	<i>No.</i>	<i>Page</i>
The introduction of self rescuers into the South African mining industry (Presidential Address) <i>Author:</i> H. J. M. ROSE	38	9	97
Current thoughts in the United Kingdom on mine safety and health and research and development <i>Author:</i> K. M. BROWN	38	10	113
Coal mine face ignitions and the methane monitor <i>Authors:</i> F. N. KISSEL, S. RUGGIERI and J. VOLKWEIN	39	4	49
An historical note of the research into the causes of spontaneous combustion prior to 1750 <i>Author:</i> R. MORRIS	39	12	168
The application of lightning warning systems on South African coal mines <i>Authors:</i> A. STOCKHUSEN and W. J. J. COETZER	40	2	21
'n Globale oorsig van steenkoolmyn beplanning <i>Skrywer:</i> C. B. J. REYNOLDS	40	6	73
Some experiences in the use of wetting agents to suppress dust at Sigma Colliery <i>Authors:</i> E. J. MEETS and A. F. NEETHLING	40	10	126
An analysis of underground fires in South African coal mines from 1970 to 1985 <i>Authors:</i> R. MORRIS and G. P. BADENHORST	40	10	134
Airflow patterns within advancing bord and pillar workings and their influence on airborne dust control <i>Authors:</i> E. J. MEETS	40	12	158
Outbursts — A future problem for South African collieries? <i>Author:</i> K. MIDDLETON	41	2	14
The functional performance of formal gold mine and colliery refuge bays with special reference to air supply failure <i>Authors:</i> A. J. KIELBLOCK, J. P. van RENSBURG, A. van der LINDE, A. J. van RENSBURG, H. M. S. RUSSEL, H. RUST and C. HAVEN	41	5	58
Onafhanklik geventileerde toevlugskamer Sigma Steenkoolmyn <i>Skrywer:</i> A. NEETHLING	41	5	72
Controlled recirculation of air at Wearmouth Colliery British Coal Corporation <i>Authors:</i> R. ROBINSON and T. HARRISON	41	6	78
 3. COOLING / REFRIGERATION			
Cooling tower performance <i>Author:</i> N. THORP	32	1	12
<i>Contribution:</i> A. WHILLIER	32	1	18
<i>Bydrae:</i> D. J. van NIEKERK	32	8	165
<i>Author's Reply:</i>	32	8	166
Current cooling practice in longwall stopes at Western Deep Levels <i>Author:</i> W. W. J. VILJOEN	32	2	21
Some aspects for consideration in the insulation of chilled water pipes <i>Authors:</i> J. G. SMIT and R. I. KIRKMAN	32	4	61
A note on the downcast shaft as a thermal flywheel <i>Author:</i> R. M. STROH	32	4	77
<i>Contribution:</i> R. H. CHOVEAUX	32	8	167
The use of economisers with multi-stage refrigeration compressors <i>Author:</i> A. E. HALL	32	4	80
The design of a surface refrigeration plant at Unisel Mine <i>Authors:</i> M. J. HOWES and N. GREEN	32	5	85
Mine ventilation and refrigeration planning (Presidential Address) <i>Author:</i> M. J. HOWES	32	12	225
The use of mid-shaft cooling in the Strathmore Shaft System, Buffelsfontein Gold Mining Company Limited <i>Author:</i> J. H. STEYN	33	3	41
Refrigeration arrangements for the sub incline area of No. 2 Shaft, President Steyn Gold Mining Company Limited <i>Author:</i> M. H. du TOIT	33	4	57
The selection of forced draught surface cooling towers <i>Author:</i> C. BAKER-DULY	33	8	136

SUBJECT INDEX

	Vol.	No.	Page
A review of mine cooling practices through the ages (Presidential Address)			
Author: W. F. GEBLER	33	12	209
On-load automatic brush cleaning system for condenser tubes			
Author: G. H. CORLETT	34	1	16
The assessment and prediction of cooling plant performance			
Author: R. HEMP	34	5,6	81,101
An investigation into the use of water-vapour refrigeration for cooling mine service water			
Author: R. D. C. SHONE	34	7	121
The performance of cooling coils			
Author: R. RAMSDEN	34	8,9	145,163
The performance of direct-contact heat exchangers			
Author: S. J. BLUHM	34	8,9	155,168
Development of an in-line water spray cooler			
Authors: J. F. MCCOY, A. WHILLIER, K. S. HELLER, E. D. THIMONS	35	1	1
Contribution: W. L. le ROUX	35	5	35
Contribution: S. J. BLUHM	35	5	36
The performance of cooling coils in stopes and gate roads			
Authors: G. MÜCKE, E. GLODECK, H. UHLIG			
Translated by: W. von PILZ	36	1,2	1,14
A thermal storage system for surface refrigeration plants			
Author: S. P. JANSEN van VUUREN	36	5	45
Experiment to combat hot spots in problem stopes using fogjet nozzles			
Author: J. C. JOUBERT	36	8	79
The temperature rise of chilled water flowing through pipes			
Author: R. RAMSDEN	36	9	85
Contribution: M. J. McPHERSON	37	5	58
Development, performance, and application of high capacity portable bulkspray coolers at Mt. Taylor mine			
Author: R. S. JURANI	36	12	121
Dehumidification of intake air to ventilate the hoist chambers at the Strathmore secondary downcast shaft system			
Author: J. P. CRAFTFORD	37	4	37
Practical considerations in the selection of tube materials for evaporators and condensers of refrigeration plants			
Author: G. H. CORLETT	37	5	56
Some influences on the condensing temperature of a water chiller			
Author: R. D. C. SHONE	37	6	61
Contribution: R. HEMP	37	8	94
Author's reply:	37	8	95
Contribution: R. HEMP	38	1	8
The effect of fissure water on the underground environment on Beisa Mine			
Author: C. J. ROUX	37	8	86
Performance testing of an energy recovery turbine at a three stage spray chamber			
Authors: D. W.B. FERGUSON and S. J. BLUHM	37	11	121
Cooling the world's coldest mine			
Author: J. van der WALT	37	12	138
Temperature of water in a bucket as it goes underground			
Author: "SHAFT TALK"	38	2,4	21,42
Development of a multi-stage water spray bulk air cooler on Kinross Mines Limited			
Author: I. van der WALT	38	3	28
Supplying refrigeration machines for cooling mines			
Author: J. van der WALT	38	4	37
Contribution: M. BAILEY-McEWAN	39	1	10
Insulation used on chilled water pipes in South African gold mines			
Author: R. RAMSDEN	38	5	49
Some recent developments in the use of ice for cooling mines			
Authors: T. J. SHEER, P. F. CILLIERS, E. J. CHAPLAIN and R. M. CORREIA	38	5,6	56,67
A manufacturer's viewpoint on direct contact air to water heat exchangers			
Author: P. J. ANDREWS	38	7	73

	<i>Vol.</i>	<i>No.</i>	<i>Page</i>
Power recovery from chilled water at the Buffelsfontein Gold Mine, Southern Shaft <i>Author:</i> M. L. van der MERWE	39	3	37
Refrigeration requirements and distribution for the Strathmore Shaft system <i>Author:</i> J. J. LYNCH	39	4	55
Computer analysis of underground refrigeration plant performance <i>Authors:</i> R. HEMP, P. F. CILLIERS, A. M. STARFIELD and P. FALLON	39	6	77
Equivalent pipe diameters and insulation thicknesses <i>Author:</i> S. OXNARD	39	7	90
A heat exchanger test facility for mine air coolers <i>Authors:</i> R. RAMSDEN and M.D. BUTTERWORTH	39	8	110
An economical method of spot cooling development ends <i>Author:</i> D. M. WALTERS	39	9	126
Brief notes on the icing up of a condenser cooling tower <i>Author:</i> ANONYMOUS	39	10	141
Guidelines for the performance testing of surface bulk air coolers <i>Authors:</i> W. F. GEBLER and R. RAMSDEN	40	5	57
Optimum use of daily changes in wet-bulb temperature in the operation of surface pre-cooling towers <i>Authors:</i> S. J. BLUHM and G. LANCASTER	40	5	64
The development of an air cooler for use at the working face <i>Authors:</i> L. FEIO, G. LANCASTER, R. RAMSDEN and H. JAWUREK	40	8	98
A program for calculating the performance of a multi-stage horizontal spray chamber <i>Author:</i> J. PARTYKA	40	8	104
Icing of cooling tower fills <i>Author:</i> B. VERWILGHEN	40	9	120
The insulation of chilled water pipe flanges <i>Author:</i> P. J. du PLOOY	41	8	139
The application of a commercial supervisory system to the centralised monitoring of underground fire detection and refrigeration systems <i>Author:</i> M. J. WHITWAM, B. B. BUYS and W. HOLDING	41	12	214
4. DUST			
The consolidation of footwall dust in intake airways and roadways using calcium chloride <i>Authors:</i> H. H. E. SCHRÖDER, A. J. P. van WYK and J. H. QUILLIAM	34	9	175
A logical procedure for the evaluation of dust control system requirements <i>Author:</i> I. C. COATES	35	2	9
Results of surveys on dust conditions in controlled gold mines <i>Authors:</i> H. H. E. SCHRÖDER, G. APPELMAN, J. H. QUILLIAM	35	10	98
Controlling dust and gas in the face area: operating experience with low seam continuous miners <i>Author:</i> C. J. BEUKES	36	8	74
Controlling dust and gas in the face area: operating experience under ultra low-seam conditions <i>Author:</i> S.P. DAFT	37	1	9
Die uitwerking van verskillende ventilasiesistels op die gas en stofkonsentrasie in 'n delwersfront <i>Skrywer:</i> W. J. J. COETZER	37	5	49
Suppression of respirable dust and airborne asbestos fibres using sonic atomizing water spray nozzles <i>Authors:</i> H. H. E. SCHRÖDER and F. M. RUNGGAS	39	11	145
Some experience in the use of wetting agents to suppress dust at Sigma Colliery <i>Authors:</i> E. J. MEETS and A. F. NEETHLING	40	10	126
Composition and size of dust in a gold mine atmosphere <i>Authors:</i> H. J. ANNAGARN, A. ZUCCHIATTI, J. P. F. SELLSCHOP and B. KUSKO	41	1	1

SUBJECT INDEX

	Vol.	No.	Page
5. DUST FILTRATION			
Combination fan/filter units			
Author: R. J. C. PELLOW	32	3	51
Gravel bed filters			
Author: J. HOLDEN	34	2	36
Fabric filtration			
Author: D. TUCK	34	3	41
Respirators			
Author: I. G. WHITTINGHAM	35	8	72
6. DUST SAMPLING			
Stack sampling and size distributions obtained with a cascade impactor — analysis of results and applications			
Author: M. J. HOWES	33	2	27
A method for routine dust sampling in collieries			
Authors: H. H. E. SCHRÖDER, J. A. L. KRÜSS, A. J. P. van WYK	36	4	33
7. FANS			
Use of underground auxiliary and booster fans in British coal mines			
Author: ANONYMOUS	32	9	190
Energy economics of fans in remotely parallel operation			
Author: W. L. le ROUX	34	10	184
Fan and fan system vibrations			
Author: J. H. de la HARPE	35	3	17
Mechanical and electrical criteria for axial flow auxiliary mine fans			
Author: R. C. CALDWELL	35	4	25
Scale model testing on upcast shaft bends and fan installations			
Author: H. M. W. ESCHENBURG	35	6	41
Fan tender evaluation			
Author: R. M. STROH	35	6	49
The determination of operating points for fans partially in series or parallel using energy and massflow equations			
Author: A. E. HALL	37	2	13
The potential of the centri-axial fan and mixed flow fan for auxiliary underground ventilation			
Author: B. GREWCOCK	37	10	116
The selection and development of main and major booster fans for the mining industry			
Author: M. R. EADIE and J. MARPLES	38	3	25
Considerations in the installation of booster fans			
Author: SHOU-PEN LIU	38	11	122
The history of mine fans in South Africa			
Author: J. H. de la HARPE and L. W. JENNER	39	12	163
A discussion on the testing of production fans and the tolerances applied to measurement			
Author: J. MARPLES	40	2	25
The commissioning of South Ventilation No. 2 and Central Ventilation fans at Selebi-Phikwe mine			
Author: H. BRACKMAN	41	7	111
Noise control of underground auxiliary mine fans			
Author: R. C. CALDWELL	41	11	205
8. FIRES			
Preventing mine fires			
Author: A. C. HAVENGA	32	5	102
Some further thoughts on colliery fires and the weather			
Authors: C. J. FAUCONNIER and J. D. R. BEUKES	32	11	209

	<i>Vol.</i>	<i>No.</i>	<i>Page</i>
An all-analogue fire detection system for South African gold mines			
<i>Authors:</i> N. T. van der WALT, B. J. BOUT, Q. S. ANDERSON and T. J. NEWINGTON	33	1	2
The underground fire at Vaal Reefs No. 8 Shaft on 1st December, 1978			
<i>Author:</i> S. P. JANSEN van VUUREN	33	4	64
An historical note of the research into the causes of spontaneous combustion prior to 1750			
<i>Author:</i> R. MORRIS	39	12	168
An analysis of underground fires in South African coal mines from 1970 to 1985			
<i>Authors:</i> R. MORRIS and G. P. BADENHORST	40	10	134
Fire research			
<i>Author:</i> "SHAFT TALK"	41	9	166
Fire prevention and protection for trackless equipment			
<i>Author:</i> A. J. BURGER	41	10	181
 9. GASES			
Symposium on "Mine Gases, Air Sampling and Gas Detection"			
<i>Opening Address by:</i> D. A. ETHEREDGE	33	5	73
Airborne radiation hazards in uranium mining			
<i>Author:</i> J. K. BASSON	33	5	74
Radon and radon daughters in South African underground mines. Sources, measurement and control			
<i>Author:</i> R. ROLLE	33	5	82
Diesel exhaust emissions			
<i>Author:</i> J. D. GREIG	33	6	89
<i>Contribution:</i> I. C. COATES	33	6	96
<i>Contribution:</i> R. HEMP	33	9	165
<i>Authors Reply:</i>	33	9	165
Permissible excursion limits for threshold limit values			
<i>Author:</i> H. H. E. SCHRÖDER	33	7	105
Sources and control of methane in gold mines			
<i>Author:</i> H. M. W. ESCHENBURG	33	8	125
The determination of optimal gas sampling times and/or locations for sampling from sealed-off areas in collieries			
<i>Author:</i> C. J. FAUCONNIER	33	10	169
Analysis techniques available for monitoring mine atmospheres			
<i>Author:</i> M. S. TURNBULL	33	11	189
Abberations in the gaseous composition of mine atmospheres			
<i>Author:</i> M. J. MARTINSON	33	11	197
Discussion Sessions:	33	5	85
	33	6	95
	33	6	100
	33	7	117
	33	8	135
	33	10	178
List of Papers:	33	5	87
A note on the Time Weighted Average (TWA) threshold limit values			
<i>Author:</i> H. H. E. SCHRÖDER	33	10	180
Note on the hydrogen hazard in smelt houses			
<i>Author:</i> J. J. van DEVENTER	33	12	226
Acute hazards of explosive gases, their detection and control			
<i>Author:</i> W. HOLDING	34	1	1
<i>Concluding Address by:</i> W. S. RAPSON	34	1	15
<i>Discussion Session:</i>	34	1	14
Gas cleaning and cooling in sulphuric acid plants			
<i>Author:</i> J. P. HERSELMAN	34	2	21
ADU plant ventilation and fume extraction			
<i>Author:</i> I. C. COATES	34	2	28
The mobile gas analysis laboratories of the Chamber of Mines of South Africa			
<i>Authors:</i> Y. HAVEN and C. J. J. HATTINGH	34	3	51

SUBJECT INDEX

	Vol.	No.	Page
A proposed code of practice for the sealing of old workings in collieries			
Author: P. KING	35	5	33
Sir Humphrey Davy and the flame safety lamp (Presidential Address)			
Author: T. G. UBSDELL	35	11,12	105,113
Vote of Thanks: A. D. UNSTED	35	12	115
Problems related to the detection and monitoring of gases in the face area of highly mechanised collieries			
Author: W. PHELPS	36	6	59
Controlling dust and gases in the face area: operating experience with low seam continuous miners			
Author: C. J. BEUKES	36	8	74
Spontaneous combustion: its early detection and the latest means of combating it in the Western Area			
Authors: W. HIGHTON and J. M. COOPER (Pub. Mining Engineer, 1982)			
Summary and Comment by: W. HOLDING	36	8	77
Face ventilation analysis by probability plotting of transformed methane concentration data			
Authors: W. E. SHROEDER and F. N. KISSEL	36	11,12	109,126
Controlling dust and gas in the face area: operating experience under ultra low-seam conditions			
Author: S. P. DAFT	37	1	9
Protection with stonedust barriers on coal conveying roads			
Author: P. J. YSSEL	37	3	25
Die uitwerking van verskillende ventilasiesistels op die gas- en stofkonsentrasie in 'n delwersfront			
Skrywer: W. J. J. COETZER	37	5	49
The early detection of inflammable gas at the working face			
Author: E. R. STEYN	38	7	81
The introduction of self rescuers into the South African mining industry (Presidential Address)			
Author: H. J.M. ROSE	38	9	97
Diffusion of methane through synthetic rubber			
Author: H. M. W. ESCHENBURG	39	1	9
Contribution by: S. G. TAUSSIG	39	3	46
Sulphur hexafluoride as a mine ventilation research tool — recent field applications			
Authors: R. J. TIMKO and E. D. THIMONS	39	2	13
Coal mine face ignitions and the methane monitor			
Authors: F. N. KISSEL, S. RUGGIERI and J. VOLKWEIN	39	4	49
Controlled recirculation: its effect on blast contaminant decay			
Authors: N. A. ALEXANDER, A. D. UNSTED and K. C. BENECKE	40	7	85
Outbursts — A future problem for South African collieries?			
Author: K. MIDDLETON	41	2	14
 10. HEAT AND TEMPERATURE			
Heat pick-up from the rock in gold mines			
The water-rock thermal balance and the thermal efficiency of production			
Authors: J. van der WALT and A. WHILLIER	32	7	125
Contribution: R. HEMP	32	8	161
Authors' Reply:	32	10	207
Contribution: R. HEMP	32	12	240
A guide to the measurement and assessment of heat stress in gold mines			
Authors: J. M. STEWART and A. WHILLIER	32	9	169
Errata:	32	11	223
Measurement of virgin rock temperatures in stopes and development ends of Blyvooruitzicht Gold Mine			
Author: P. DEGLON	33	1	14
Heat acclimatization: perspectives and trends			
Authors: A. J. KIELBLOCK, P. C. SCHUTTE, N. B. STRYDOM	35	7	53
Existence of an optimum air quantity in hot development ends			
Author: A. M. PATTERSON	35	10	89

	Vol.	No.	Page
The temperature rise of chilled water flowing through pipes			
Author: R. RAMSDEN	36	9	85
Contribution: M. J. McPHERSON	37	5	58
Virgin rock temperature measurements using thermistors and a digital read out system			
Author: C. S. PORTER	37	3	31
Air temperature increases in airways			
Author: R. HEMP	38	1,2	1,13
Contribution: P. BOTTOMLEY and S. J. BLUHM	38	4	46
Contribution: J. de V. LAMBRECHTS	38	8	94
Author's replies:	38	5,12	59,148
Use of thermal insulation materials in mines			
Authors: K. ARKLE, L. COLLINS and T. J. BLACKWOOD-MURRAY	38	4	43
Geothermal heat flux			
Author: "SHAFT TALK"	38	5	55
Relative magnitudes of heat flow from rock into tunnels and that into stopes			
Author: "SHAFT TALK"	38	9,11	107,138
Predicting the nominal heat load in a mine			
Author: J. van der WALT	39	5	61
Erratum:	39	7	102
Heat acclimatization, practices and procedures: an appraisal			
Authors: P. C. SCHUTTE and A. J. KIELBLOCK	39	8	105
The measurement of heat loads in a deep level stope in the Klerksdorp goldfield			
Authors: S. J. BLUHM, N. A. ALEXANDER, T. C. W. MARCH, P. BOTTOMLEY and F. von GLEHN	39	10	129
Air temperature increases in airways — further work			
Author: R. HEMP	40	1	1
The effect of clothing on heat stress in mining environments			
Author: A. I. MURRAY-SMITH	40	3	37
The insulation of rock surfaces — an empirical study			
Authors: P. BOTTOMLEY and B. van RENSBURG	40	4	41
The measurement of heat flow in a backfilled stope			
Authors: M. K. MATTHEWS, H. N. MCCREADIE and T. C. W. MARCH	40	11	142
 11. ILLUMINATION			
Effects of illumination levels, dark adaptation and vitamin A on the visual acuity of gold mine workers			
Authors: P. C. SCHUTTE and A. J. van RENSBURG	36	3	26
An investigation into lighting conditions in haulages at Vaal Reefs No. 4 Shaft			
Authors: R. M. STROH and W. von PILZ	36	4	39
Lighting measurements in gold mine haulages			
Authors: R. HEMP, P. DEGLON and G. S. STANDER	36	7	65
Longwall lighting			
Authors: W. H. LEWIS, J. PEAY, J. C. YINGLING and G. R. BOCKOSH	37	1	1
 12. MECHANIZATION			
Proceedings of the Symposium on the Ventilation of Mechanised Mines			
Opening Address: An Overview of Mechanisation			
Author: E. SCHMID	32	3	41
Environmental control for raise and blind hole boring equipment			
Author: P. GRAHAM	32	3	44
Telecommunication in mechanised mining			
Author: A. R. ATKINS	32	4	71
Environmental problems associated with mechanisation at Prieska Copper Mines (Pty) Ltd			
Author: W. HOLDING	32	6	106
Contribution: A. E. HALL	32	6	112
Mechanised mining project site at Doornfontein Gold Mining Company Limited			
Author: P. J. BOTHA	32	6	114

SUBJECT INDEX

	Vol.	No.	Page
The ventilation of tunnel and blindhole boring machines in South African gold mines <i>Author: A. E. HALL</i>	32	9	179
Noise control in mechanised mining <i>Author: M. J. HOWES</i>	32	10	193
Report on discussion sessions:	32	3	51
	32	4	76
	32	6	112
	32	6	118
	32	9	189
	32	10	205
The planning of ventilation systems for trackless mining at Randfontein Estates Gold Mine <i>Authors: P. R. HUNTER and G. VISZOLAI</i>	41	9	150
Optimal proportioning of ventilation and refrigeration in a hot deep gold mine using trackless mining <i>Author: H. J. FOURIE</i>	41	10	170
Fire prevention and protection for trackless equipment <i>Author: A. J. BURGER</i>	41	10	181
13. MISCELLANEOUS			
Some new developments in mine ventilation from the U.S. Bureau of Mines <i>Author: F. N. KISSEL (Pub. 1978)</i>	32	1	18
<i>Contribution: M. J. McPHERSON</i>	32	1	20
<i>Author's reply:</i>			
The cost of electric power <i>Author: W. L. le ROUX</i>	32	5	98
How to make a financial comparison when choosing alternative ventilation/refrigeration equipment <i>Author: C. L. SUNTER</i>	33	3	47
Notes for students: student orientated ventilation programs for use on the HP25 and HP33E calculators <i>Author: G. L. HARRISON</i>	33	3,4	51,71
Statistiek en die hoeveelheid lug <i>Skrywer: W. von PILZ</i>	35	6	45
Temperature compensation for aneroid barometer calibration <i>Author: M. K. GANGAL</i>	35	7	61
Underground environmental planning at Boulby Mine, Cleveland Potash Limited, England <i>Authors: G. ROBINSON, M. J. McPHERSON, R. C. WELLER</i>	35	9	73
A lightning warning system <i>Authors: H. C. van ZYL, J. E. LYCETT, S. J. CROUS</i>	35	12	121
