Office Safety Committee
Nominees, 1981-82

J. A. Glass

Below are listed names of nominees to be considered for the 1981-82 Office Safety Committee. The current committee was selected from the different areas of the plant last year, and we have found that such representation is helpful in determining safety awareness needs and in reaching all sections of the plant.

Marilyn Decker, Sue Lessa and Kathryn Woodard have expressed an interest in being "holdovers" from the 1980-81 Committee to serve on the new committee. It has proven to be very beneficial to the new committee to have former members as a part of the committee to give a smooth continuity to programs

requested of the group and suggested and carried out by them.

We have enjoyed serving on the Office Safety Committee this year, and feel that we have sponsored good programs.

We would like to suggest for your consideration that the Office Safety Committee be renamed to "Salaried Safety Committee" to include a wider range of employees, that such designation would denote more people than secretaries, technicians, clerks, etc.
