

LEADING PAINT MANUFACTURERS PREFER OUR WHITE-LEAD PIGMENTS

... DRY WHITE-LEAD — Dutch or Gaster Process

... H. T. S. (High Tinting Strength) WHITE-LEAD
a white-lead with especially high hiding and oil-holding power

... BASIC LEAD SULPHATE

For years, leading paint manufacturers have secured their white-lead pigments from National Lead Company.

This continuous preference for National Lead Company products testifies to their unvarying excellence and dependability.

In addition to the dry white-leads listed above, National Lead Company also supplies lead oxides of the highest quality — red-lead, litharge and orange mineral.
