A I have heard that. I am not sure I can name anybody else who believes that, but I have heard that.

Q You have heard that is his opinion?

A I have heard that is his opinion.

Q Now, back to Dr. Craighead. You are also aware, are you not, Dr. Brody, that Dr. Craighead believes that exposure to pure chrysotile or processed chrysotile does not cause mesothelioma, you have heard that, haven't you?

A I have heard that.

Q Okay.

I believe you testified that you started testifying in 1989; is that right?

A I was asked to be a consultant on one case.

Q Then you had a couple in '90?

A Right.

Q Since '89, how many cases have you testified on behalf of plaintiffs? Just approximately.

A Maybe three dozen, something like that.

MR. WILLIAMS: Okay. Thank you. I have no
