Re: TACB Account No. HG-0659-W

Dear Mr. Dillard:

This is to advise you that in accordance with Volume 44 of the Federal Register, Page 7714, dated February 7, 1979, the State of Texas has been delegated authority for the National Emissions Standards for Hazardous Air Pollutants (NESHAPS). As a result, all reports and communications previously submitted to the EPA Administrator should now be sent to the Texas Air Control Board.

Since EPA has already sent us your letter of July 10, 1979, regarding the removal of asbestos insulation incidental to maintenance shutdowns of certain production units at your Deer Park facility, there is no need for you to provide any further information concerning that matter at this time; however, I request that you please direct any future correspondence regarding these matters to this office.

Sincerely,

H. Williams
