Subject: A.C.O.A. Prepared Blue Fibre
Requested by: S. Bonet per L. Heinrich
Identification: Rock Content Basic Problem
Re: Memo S. Bonet to R. Jacobs of 1/22/57

DESCRIPTION:-

By the floatation method a ten gram sample of Blue Fibre was tested for rock content.

SUMMARY:-

Only a trace of rock was detected. The entire sample, consisting of approximately 150 grams, was examined for sizeable rock and only one piece was found, about the size of a pea.

Note: Blended Blue Crocidolite Fibre processed by A.C.O.A.
is used in formula of 83 Sheet Packing.

cjz

APPROVED: R. Jacobs
