Quebec Asbestos Mining Association Minutes, 1957-1976

7/25/65:

Public relations comm. discusses McDonald study (p. 7-8).

11/29/65:

Acceptance of McDonald's proposed epi study urged. "QAMA should take into its hands the ways and means to conduct the necessary research instead of doing it through universities or letting it fall in the hands of the government. As an example, it was recalled that the tobacco industry launched its own program and now it knows where it stands." (p. 9).
