RE: Meeting Announcement

The next Vinyl Chloride Health Committee meeting is scheduled for Monday, January 30, 1995 from 10:30 a.m. to 3:30 p.m., EST. Dr. Ken Mundt of Applied Epidemiology Inc. will join us to discuss the vinyl chloride epidemiology study update. Dr. Carlo Tamburo of the University of Louisville also will attend the meeting to discuss his proposed brain cancer study of vinyl chloride-exposed workers. The January 30 meeting also will provide us with an opportunity to discuss our strategy for an anticipated meeting with ATSDR and EPA to discuss their data needs. An agenda will be sent to you shortly. If you are unable to attend the meeting, please call Kim Reed at (202) 887-1191. Please also let her know if other representatives from your company are planning to attend. I hope you have a happy new year!
