Hi Thomas,

could you check in and confirm with the DCs that they have reviewed & approved the attached papers? If they have not, the need to do so by close of business monday (and sooner is better).

Note that fire & fuels says it is us, but we've already passed that on to Ron for FA100 review.

I did a quick skim and these seem ok except the current actions are written as future tense, but we did already finish the tasks listed as per the due dates in the SO.

thanks
Karen

Matthew, Chris, Tim, Kristin, & Sal,

As you may know, the Department has asks the bureaus to identify topics and prepare briefing papers for the Secretary's budget hearings. Attached below are 25 high level program overview briefing papers we have prepared for OCL. 620 has cleared the papers through the programs

Can you please review the papers that have been identified under your directorate and let us know if you have edits by **noon, Tuesday (5/2)**? Please feel free to review other papers that are not identified for your directorate but are of interest. Happy to answer any questions.

Thanks!
Meagan
