AIR MAIL

L. E. Curtis, M.D.
Standard Oil Company of California
225 Bush Street
San Francisco 20, California

Dear Doctor Curtis:

Herewith is the last of the analytical results on the Yellow Cab men during Phase III, or if not the last, it is so nearly so as to leave nothing of importance to be added.

On the basis of the findings during Phase I and Phase III, I have set down the average results side by side for each man and for the group. This answers the question as to the severity of the added exposure during Phase III in a definite manner.

Cordially,

Robert A. Kehoe, M. D.
