

Two Stage CRUSHING IN ONE MACHINE!

The GUNDLACH "Two Stage" Coal Crusher incorporates two crushing stages in one machine and is designed to reduce RUN-OF-MINE to SIZES COAL in ONE operation. Compact design simplifies structural support and installation. Rugged single construction combined with engineering proved in the field makes this machine a profitable and reliable unit.

MATERIAL SIZE CAN BE CHANGED WHILE MACHINE IS RUNNING

T. J. GUNDLACH Machine Co., Belleville, Ill.

Crusher is produced without hopper and aprons. Hopper and aprons are optional. Write today for CRUSHER BULLETIN P. 3

page, 3-color catalog. Installation diagrams and specs incl. Catalog 85B. Sprague Electric Co., N. Adams, Mass.

HEAT EXCHANGERS

28 Steam atomizing all burners for use with heavy oil or tar in boilers, stills, dryers and other furnaces having steam or compressed air available for atomizing the oil. 18-page bulletin. National Airoil Burner Co., Inc. 1184 S. Bodley Ave., Philadelphia 14, Pa.

29 Immersion heater catalog features data for calculating power requirements for heating processing tanks. 3-page folder with photos, spec tables, graphs. Cleveland Process Co., 1018 Euclid Ave., Cleveland 3, Ohio.

30 One and dual-fuel firing for heating and power plants explained in 4-page, 3-color folder. Presents vertical, "inset" and ring type burners and new dual-fuel package unit. Form 2319. Iron Pipe and Machine Works, 1101 E. 12th St., Cleveland 11, Ohio.

31 Oil and gas burning equipment for foundries discussed in 32-page, 3-color catalog. Photos, spec charts, firing diagrams. Catalog 1048C. Hawk Mfg. Co., 124-126 10th St., Brooklyn 18, N. Y.

32 Heat exchangers and hot water storage heaters covered in 18-page, 3-color catalog. Data on horizontal, vertical and instantaneous heaters, converters, coolers, etc. Cutaway photos, spec tables and diagrams. Catalog 8, Totterson-Kelley Co., Inc. Warren St., B. Stroudsburg, Pa.

INSULATION

33 Installation of rigid and flexible fiberglass for exterior and interior lining of warm and cold air ducts discussed in 18-page design data booklet. Photos, efficiency data, installation sketches. AIA File 10-A. Owens-Corning Fiberglas Corp., Toledo 1, Ohio.

34 Thermoplastic insulating material explained in 3-color leaflet. Bulletin 1-1-51. Spec tables and graphs cover physical, electrical, chemical, mechanical properties. M. W. Kellogg Co., PO Box 469, Jersey City 3, N. J.

35 Vibration isolation between connecting suction and discharge lines and air conditioning machinery, pumps and turbines explained in 2-color leaflet. Specs, inst. instr., supporting data on Flexon Vibre-Barbers. Bulletin V/S. Flexonics Corp., Maywood, Ill.

MAINTENANCE, SAFETY EQUIPMENT

36 Floor and bench model 9" lathes presented in 13-page catalog. Includes 43 attachments and accessories for adaptation to maintenance demands. Catalog 5104. South Bend Lathe Works, 416 E. Madison St., South Bend 33, Ind.

37 Soluble oil for metal cutting, grinding and forming operations discussed in 3-color folder. Operating instructions and recommended dilutions incl. Bulletin 8061. Shear-Speed Chem. Prod. Div., Michigan Tool Co., 1115 E. McNichols Rd., Detroit 13, Mich.

38 Oils for wide industrial application discussed in Tech Bulletin 17. Physical properties and advantages of new Solmar oils presented. Sun Oil Co., Philadelphia 3, Pa.

39 Control equipment maintenance explained in 6-page booklet. Quick reference chart for trouble-shooting included. Bulletin 14X741A. Atlas-Chalmers Mfg. Co., General Machy Div., Milwaukee 1, Wis.

40 Hot-rolled, wound, flexible metal hose described in 3-color, 42-page catalog. Includes charts on frictional losses vs. flow rates, photo story on the making of seamless metal hose, specification page. Catalog 800. Titeflex, Inc., 800 Franklin Avenue, Newark 2, N. J.

41 Steam vapor and high pressure combination steamers presented in 3-page folder. Demonstration photos, spec charts and accessories list included.

How to make

ACCURATE BOILER WATER pH, PHOSPHATE NITRATE TESTS

USE TAYLOR COMPARATORS

You can make many determinations in seconds... longest take only two minutes. Taylor Beta are lightweight, easy to carry for on-the-spot tests, or can use them in the lab. Each set complete with accessories and reagents.

Easy as A • B • C

A. Fill these test tubes with sample to be tested and place them in the base.

B. Add reagent middle tube only.

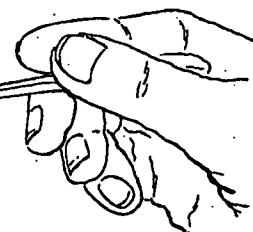

C. Place color slide on base, move across until colors match, and... THERE'S THE VALUE!

Guaranteed Color Standards! Scaled-in plastic color standards carry 25 unconditional guarantees against fading. They give you complete freedom from mechanical inaccuracy in making determinations. No single standards to handle. Each set contains a complete set of standards for any one determination.

SEE YOUR DEALER... for equipment. Write direct for PAPER HANDBOOK on pH and Chlorine control in 34 basic industries. Also illustrates and describes all Taylor Beta.

a teaspoonful of steam!

HERE'S THE ANSWER TO YOUR SMALL FLOW CONTROL PROBLEMS

a NEW LESLIE REDUCING VALVE

for accurate, foolproof regulation of small flows of steam, air, gas or liquids, with inlet pressures to 1000-psi and reduced pressures from 2 to 400 psi.

Change operating conditions quickly and easily with simple, handwheel adjustment—no need to waste time changing springs or swapping parts. Check these widely accepted Leslie features that are standard in the new, efficient, Leslie Small Flow Reducing Valve.

Check these Features	
☒	Simple, compact construction
☒	Top quality materials
☒	Metal Diaphragm
☒	Entirely enclosed—no stuffing boxes
☒	Corrosion resistant springs
☒	Hardened stainless steel valve
☒	Interchangeable liner valves

LESLIE

THE FIRST NAME IN PRESSURE, TEMPERATURE AND LEVEL CONTROLS Since 1900

SEND FOR DESCRIPTIVE BULLETIN 511-A WITH COMPLETE CAPACITY TABLES

Before you order—

The new Class LCB is just one of the many units that are special with most manufacturers but are standard with Leslie.

Check to see if any pressure, temperature or level control you want is standard with Leslie, before you order. Play it safe. Your Leslie Engineer is listed under "Valves" or "Regulators" in the classified telephone directory in principal cities.
