Roll 66 York

RG-16
Records of the Department of Labor and Industry, Industrial Board
Director's Administrative File, 1946-1971, 1978. (15 cartons){series #16.9}
Arranged chronologically.
Administrative correspondence, memoranda, and statistical reports concerning routine operations of the Bureau of Employment Security. Information is found on staffing and job classifications, research studies, and relations between federal and state agencies.

Labor Dispute Case Files, 1938-1943, 1951-1953. (12 boxes) {series #16.16}
Arranged chronologically, and there under alphabetically by type of industry.
Preliminary reports and summary final reports, memoranda, and correspondence concerning mediation of labor dispute cases. Information given generally includes the case number, the name and location of the company, the type of industry, the nature and cause of the dispute, the craft concerned, and the duration of the dispute. The final disposition reports reveal terms of the final settlement, the number of employees affected (broken down by gender), and the number of firms or employers affected by the dispute. The types of industries represented include the building trades, coal mining, the leather trades, paper manufacture, metal fabrication, clothing manufacture and the lumber industry.

Industrial Board
Minutes, 1914-2002. (25 cartons and 15 boxes) {series #16.22}
Arranged chronologically by date of meeting.
Minutes of the meetings of the Industrial Board that was created to review and approve all regulations proposed by the Department of Labor and Industry. The minutes include the names of the Board members and others in attendance and a summary of the discussions and decisions

rendered by the Board. Decisions of the Board generally relate to interpretations of the intent behind Departmental regulations and the approval of various types of safety devices.

Departmental Bulletin Books, 1925-1930. (1 volume){series #16.21}
Arranged by series number.
Bulletins issued from the Secretary to the various bureaus of the Department of Labor and Industry. Information found includes new laws governing the agency and the functions of each bureau, regulations concerning the employment of minors, Act 466 regulating employment of women, and the definitions of the "foreward," "penalty," "petition," and "administration" clauses in department regulations. Also present is information relating to regulations on scaffolds, ladders, cranes and hoists, head and eye protection, mechanical power transmission apparatus, and spray coating. Many bulletins are illustrated with diagrams and photographs.
