Johns Manville Asbestos, Ltd.
Asbestos Fiber Division
P. O. Box 1500
Asbestos, Quebec
CANADA

Attention: Mr. Noel W. Handry
General Sales Manager

Dear Mr. Handry:

As you know, we have ceased using Processed African Blue Crocidolite Fiber. In taking our annual inventory, we discovered that we still have 3,100 pounds of this material, which was purchased from you in January of this year, against our Purchase Order No. 38028. This is your "JMI 2545-M Asbestos Fiber".

Since we have no further application for this material, we are writing to inquire whether you are prepared to repurchase this material back from us. If so, we would appreciate learning the price you would pay for same, and would like to receive your shipping instructions.

If you find you are unable to purchase this material yourselves, do you have any other customers in this area, who would be interested in receiving 3,100 pounds of this material? Your early answer on this matter would be much appreciated.

Very truly yours,

ROSECO, INC.
