Killian, Cole

Hey Dan, I may have already asked this. In NGGS there's "Award Date" and "Award Signed". What does each of them mean / how do they relate to one another? This example grant is 00161831 📷 📷

From the screen shots--The first screen, Section 1, Date Signed is carryover from the grants.gov application, applicant signed date. 2nd screen, Section 2, Award Date is the Date the GMO signed the award document. (Generally, One is the applicant date signed and the other is the EPA Award date signed.)
