SUBJECT: Asbestos Standard (1926)

Per several of your requests, I have attached the current construction asbestos standard (1926) which outlines the need and qualification of a competent person. I have also attached a letter received from Georgia Tech which outlines the course seminar. Remember your representative cannot send in their registration before I have notified the registrar office at Georgia Tech. I will be out of the office a good bit in October and November so get me your representative ASAP.
