M.L.P.D. BULLETIN NO. 51

SUBJECT: LEAD REQUIREMENTS

To Members of the Metallic Lead Products Division:

The following information is based on interviews with representatives of the Atomic Energy Commission in Washington, D. C.

OVER-ALL LEAD REQUIREMENTS U. S. ATOMIC ENERGY COMMISSION

Fiscal Year	Lead required, Tons
1950	1000±
1951	3000±±
1952	5000±±±

±Broken down into end products in M.L.P.D. Bulletin No. 45.
±±Most of this has already been procured.
±±±Conservative estimate. Actual requirements will probably exceed this figure.

The above figures include all of the sheet lead, pig lead, pipe and brick which are purchased by the various operations offices of the commission.

A list of principal architect engineers and principal general construction contractors on A.E.C. projects as of May 1, 1951 is attached.

The above information is not available for release to the general public. It may be used only for the enlightenment of those directly concerned insofar as it may benefit them as well as the Atomic Energy Commission.

Two new booklets prepared by the U.S.A.E.C. that may be of interest to members may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. for 15¢ each; (1) "A Guide for Contracting of Construction and Related Engineering Services," (2) "U.S.A.E.C. Contracting and Purchasing Offices and Types of Commodities Purchased."

Robert L. Ziegfeld
Secretary.
