Mr. Ernest Hushleck,  
President,  
Keesbey & Mattison Company,  
Ashler, Penna.

Dear Mr. Hushleck:

I delayed answering yours of May 3rd and Mr. Rohrbach's of May 5th as I felt there was nothing further to do until the Baranac Report had been received. For at least the past six months we have received repeated assurances that it would be forthcoming within a "few weeks". I am about to be forced reluctantly to the conclusion that the crisp, cool atmosphere of the Adirondacks has an effect somewhat similar to that of the warm, humid atmosphere prevailing South of the Border.

You may be assured I will communicate with you and Mr. Rohrbach as soon as a report has been received.

Sincerely,

Vandiver Brown,  
Secretary.
