

1 believe it is the original equipment quality parts.

2 Q Fair enough. Thank you.

3 I think I just have a few more questions,
4 sir.

5 It is fair to say, is it not, that Ford
6 never performed any dust counts during brake and
7 clutch work at Foreign Motors here in Baltimore, where
8 Mr. Grewe worked?

9 A I don't know, but I would certainly expect
10 that they didn't.

11 Q You would agree, Ford doesn't possess any
12 dust count results at Foreign Motors?

13 A No, there is dust count results for many
14 locations, but I sort of doubt it would be from that
15 location.

16 Q Consequently, Ford, you would agree, doesn't
17 know what levels Mr. Grewe was exposed to of asbestos
18 during his brake and clutch work?

19 A Not precise numbers. They would certainly
20 be able to make reasonable assumptions based on other
21 locations.
