June 26, 1974 -

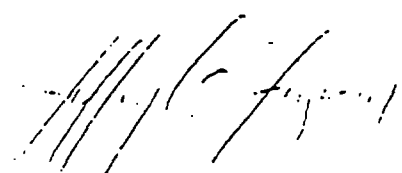

Martin J. Winner - Occupational
Disease Claim

Please find attached Industrial Commission of Ohio form OD-4 (claimants report of occupational disease) and form C-3 (report of industrial injury) which were received in the mail on Tuesday, June 25, 1974. These forms pertain to employee Martin Winner and allege pneumoconiosis, suggesting cause from exposure to asbestos at work.

In view of the medical complexity and sensitivity of this issue I have referred the case to your attention for joint consideration as to the best approach in handling it. Because of the nature of this matter, I believe it should be addressed without any prolonged delay. I am available at your convenience for discussion relative to the most logical and sound approach that should be taken on the part of the Company.
