Dear [\[REDACTED\]](#),

Thank you very much for sharing this and for taking your time explaining the practical impacts. This is very useful and much appreciated.

All the best,

Lukas

Subject: Meeting with EurEau on the Commission support for the REACH restriction of non-essential PFAS uses

Dear Mrs Montani, Mrs Braun, [\[REDACTED\]](#) and Mr Višek,

Thank you very much for yesterday's useful meeting. It was really re-assuring to hear that the European Commission maintains its full support for the REACH restriction banning all non-essential PFAS uses.

As requested, we attach the slides we showed yesterday. You will also find a more detailed document that we submitted as an annex to the ECHA consultation. It explains how PFAS affect water operators and provides examples of PFAS contaminations and related costs.

If you seek even more details, we recommend the following EurEau Briefing Notes:

- ~ [Briefing Note on PFAS and Drinking Water](#)
- ~ [Briefing Note on PFAS and Waste Water](#)
- ~ [Briefing Note on Sludge and the Circular Economy – the Impact of PFAS](#)

Of interest should also be our [Position paper on PFAS in the urban water cycle.](#)

Regards,

EurEau
