Attached is the final St. Louis version of the text for PCB warning. This wording will be used on Monsanto PCB products world-wide.

Please be kind enough to translate into your countries language the section inside the double black lines and send back to Brussels as quickly as you can.

I will be looking after translation into Russian.

JN HAGGART

P.S.

All this changing of text etc. may seem excessive but when company liability is involved you can understand that things must be right. JNH
