refer to No. NP16/L5/JJ33-(3183-E) Test B-2630

21 MAY 1940

From: Director.
To: Bureau of Engineering.
Subject: Packing, Compressed Asbestos Sheet - Order 12066-69564 - Goss Printing Co., Contr. - Garlock Packing Co., Mfr. - Test B-2630.

References: (a) RINM, Rochester, N.Y. Miscellaneous Material Sheet, Report No. T-17860 of 7 May 1940.
(b) Navy Dept. Spec. 33-P-13b.

1. A sample of the subject material for test was received on 10 May 1940 from the Resident Inspector of Naval Material, USN, Rochester, N. Y.

2. The material was examined and the following results were obtained:

Thickness, nominal, in.	1/32
Thickness, actual in.	0.032
Deviation, per cent	+2.56
Wt. per sq. yd., lbs.	2.51
Tensile strength, lbs. per sq. in.:	
Longitudinal	9187.0
Transverse	3000.0
Average	6093.5
Asbestos, per cent	77.61
Rubber, per cent	17.40

3. The material is in accordance with the requirements of reference (b) and its acceptance is recommended.
