

(Drislane - Purcell)

1 A Yes.

2 Q So even though there would be correspondence
3 addressed to the Marshal Eclipse Division of Bendix at Troy,
4 New York, there would be a different actual physical location
5 of the offices?

6 A Yes.

7 Q While you were with Bendix, did you ever attend
8 any Society of Automotive Engineers' conventions?

9 A Yes.

10 Q Would you do that on an annual or any frequent
11 basis?

12 A Probably annual.

13 Q Okay. What was your reason for attending those
14 conferences?

15 A I was somehow a member the of what they called the
16 brake, SAE Brake Lining Subcommittee.

17 Q This was on behalf of Bendix?

18 A Yes.

19 Q What were your responsibilities in that position?

20 A It's a terribly general question. I sat there
21 representing Bendix and if they were talking of setting up
22 test procedures, uniform test procedures, I gave input on
23 that. And we might have run a couple of brake lining tests.
