Packages

THE Sherwin-Williams Varnishes are sold in 5 gallon, 1 gallon, $\frac{1}{2}$ gallon, quart, pint and $\frac{1}{2}$ pint cans, except One Coat Carriage, Pale Rubbing, Medium Rubbing, Quick Rubbing, Finest White Enamel Varnish, Durable Wood Finish Exterior, Durable Wood Finish Interior, Crystal Paper Varnish, Hard Drying Oak, Cabinet Rubbing, Gold Size Japan, and Coach Painters Japan, which are not put up in pints and half pints. Durable Floor Varnish is not in half pints.

0007-SWP-042556

0007-SWP-000125921

Price List.

The S-W. Carriage Varnish.

THE S-W. ONE COAT CARRIAGE VARNISH.

An extremely easy working, moderately quick drying Finishing Varnish. It is designed primarily for general repair work of a good grade. Price per gallon. . . \$3.

THE S-W. PALE RUBBING VARNISH.

The very palest rubbing varnish made. Its extreme paleness fits it for use on light colored work, while its high grade makes it available for work where the very finest and most durable finish is desired. It is ready to rub in four days. Price per gallon. . . \$4..

THE S-W. MEDIUM RUBBING VARNISH.

A high grade rubbing varnish, although not so pale as the preceding. It can be safely rubbed in three days. Price per gallon \$3.

See note regarding packages on page 3.

0007-SWP-042557

0007-SWP-000125922

*THE S-W. QUICK RUBBING VARNISH.**

Is as quick as a rubbing varnish ought to be and still retain its full measure of durability. May be rubbed in two days and under favorable conditions in less time.

Price per gallon. \$2.70

The S-W. Varnish Specialties

A perfect varnish for general use. It is a pure Kauri Gum and Linseed Oil varnish, suitable for both outside and inside use. A reliable varnish in every way and is fully aged before it is put in its cans. It is especially easy working and when used outside or under severe exposure will be found very elastic and durable. It is excellent for outside doors, boats, carriages and other work where good, tough varnish is necessary. It is also adapted for inside work where it can be given sufficient time to dry. Price per gallon. \$2.70

*See note regarding packages on page 5.

0007-SWP-042558

0007-SWP-000125923

This is a varnish leader for interior use only. It dries quickly and can be rubbed and polished after forty-eight hours. It will be found excellent for all high grade interior finishing and general varnishing around the house. Price per gallon. \$2.25

The S-W. House Painters' and Decorators' Varnishes

THE SHERWIN-WILLIAMS RAILWAY
VARNISHES.

	Price per gall.
Finest Durable Railway Varnish.....	3.50
For finishing coats on cars. This varnish is very durable. It flows out smoothly and evenly and dries with a rich full gloss. Its pale, clear color makes it especially adapted for use over the light colors so much used for street railway work.	
Durable Railway Body Varnish.....	2.75
For finishing coats on cars. A little quicker and harder drying than the above, it is nevertheless exceedingly durable and will give entirely satisfactory results.	
Finest Durable Railway Rubbing Varnish...	3.00
For undercoats on cars. Tough and durable. Dries hard so that it can be rubbed in three days without sweating.	
Durable Railway Rubbing Varnish.....	2.50
For undercoats on cars. Works easily, Hardens so as to rub in two days.	
Durable Inside Railway Varnish.....	2.50
For interiors of cars. A pale varnish. Dries and hardens quickly and with a full gloss. Can be rubbed. For best results use over The Sherwin-Williams Filler.	2.065
Durable Locomotive Finishing Varnish.....	2.50
A clear varnish for finishing coats on locomotives. Made of carefully selected materials. It is of great durability, flows out evenly under the brush and dries with a rich, full lustre.	
Gold Size Japan.....	2.50
This is a superior article, very economical owing to its strength and is perfectly safe to put in any mixture. It is a binder that can be used with delicate colors. It will facilitate the drying of all under-coats. It is the best possible size for gilding. Safe and certain.

Color	Price per lb.
Special Traction Yellow	30
Special Traction Orange	30
Special Traction Red	30
Traction Red Ground	25
Special Traction Green	30

These are the best colors, each of them kind possible to produce. It is desirable both from the customers standpoint and our own that these be sold for car body work wherever possible.

THE SHERWIN-WILLIAMS RAILWAY
VARNISHES.

Finest Durable Railway Varnish 2.15

For finishing coats on cars. This varnish is very durable. It flows out smoothly and evenly and dries with a rich full gloss. Its pale, clear color makes it especially adapted for use over the light colors so much used for street railway work.

Durable Railway Body Varnish 2.75

For finishing coats on cars. A little quicker and harder drying than the above, it is nevertheless exceedingly durable and will give entirely satisfactory results.

Finest Durable Railway Rubbing Varnish 2.25

For undercoats on cars. Tough and durable. Dries hard so that it can be rubbed in three days without sweating.

Durable Railway Rubbing Varnish 2.25

For undercoats on cars. Works easily, Hardens so as to rub in two days.

Durable Inside Railway Varnish 2.75

For interiors of cars. A pale varnish. Dries and hardens quickly and with a full gloss. Can be rubbed. For best results use over The Sherwin-Williams Filler.

Rx .065

Gold Size Japan 2.50

This is a superior article, very economical owing to its strength and is perfectly safe to put in any mixture. It is a binder that can be used with delicate colors. It will facilitate the drying of all under-coats. It is the best possible size for gilding. Safe and certain.

Coach Painters Japan 1.75

For drying and hardening paints and colors. Especially adapted for the use of car painters. A thoroughly reliable article.

2850	(Extra Heavy White)	1.75	

*Hull Paint, No. 2801 (Black) is made heavy enough in consistency to admit of thinning, by the addition of one gallon of boiled linseed oil to each gallon of paint.

*Hull Paints, Nos. 2812 and 2813 are semi-liquid and may be thinned for first coats by the addition of 3 gallons of boiled linseed oil to each gallon of paint. For second and third coats with from 1½ to 2 gallons boiled linseed oil.

We recommend for first coats the addition of about ¼ pint of turpentine to the paints as thinned above. When one coat only is used, leave out the turpentine.

You can readily see the economy in the use of these goods, and for durability and beauty of finish they can not be excelled.

Outside Special White..... 3.00
The whitest and best enamel white on the market.

Composition for Steel Bottoms.

The S.W. Co. Anti-Fouling Paint.

No. 1 first coat (Brown) anti-corrosive..... 2.50
No. 2 second coat (Red) anti-fouling..... 2.50

The No. 1 first coat is to be applied over the bare iron or over a coat of red lead or good paint. This coat is an anti rust paint, and is intended to preserve the iron or steel from rusting, and at the same time form a perfect under coat for the No. 2, which contains the poison and anti fouling properties. This composition is ready to use, easy of application, and works very freely under the brush. The No. 2 or finishing coat is a handsome red in color and is in every way, we believe, the best anti-fouling paint in the market.

Copper Paint.

Put up in $\frac{1}{4}$ gal., $\frac{1}{2}$ gal. and 1 gal.

Is prepared especially for preserving wooden vessel bottoms from adhesive worms, barnacles, sea weeds, etc. Numbers of tests made prove our Copper Paint to be the best in the market.

Red, brown and green in color. Finely ground, brushes out well and works easily.

Imitates the color of the wood named. Can be used over light colored raw wood or painted surfaces. Stains and varnishes at one operation. The best results can be obtained by the use of our ground before applying the Stain.

Standard Paint, Perfect Method. No. 5

This is one of the best articles ever put out of our factory. Made especially for use on iron and steel surfaces. It is made in semi paste form and should be thinned with one gallon of boiled linseed oil to each gallon of paint.

Price, Black per gal. 1/20
" Brown per gal. 1/20
" Gray per gal. 1/20
" Green per gal. 1/20

Aluminum Paint.

	1/4 pt.	1/2 pt.	1 pt.	1 qt.	1 gal.
Price	15.	27.	51.	96.	369

For Engines, Radiators, Steam Pipes, etc.

Is unaffected by moisture or extreme heat, cold, or lubricating oil, is absolutely inert, anti-corrosive, is easily applied and dries quickly.

Steamship Liquid Red Lead.

Put up in 1 gal., 5 gal. and bbls.

CAT NO.	PRICE PER GAL.
2549 (Pigment is strictly pure Red Lead)	175.

The economy in the use of Steamship Liquid Red Lead on hulls, holds, smoke stacks, etc., is from the fact that it *does not get hard in the package* and that consequently there is no waste. All liquid red leads in the market other than our own, unless used immediately, become hard in the package and subject the consumer to great loss, often as great as 25 per cent.

Adapted also for Structural Iron Work, Bridges, etc.

Steamship Paint for Smoke Stacks

Put up in 15, 35 and blis.

	PRICE PER GALL.
Smoke Stack Black.....	90.
" " Yellow, L.M.D.....	1.50
" " Red.....	
" " Blue.....	

These goods are a high grade of paint, and far more durable over heated surfaces than any other in the market.

Steamship Paint. Engine White.

Put up in 12½ and 25s.

These are goods especially prepared for heated surfaces. They are ground only in paste form and are to be thinned only with Turpentine. When so used they will not turn yellow, but remain perfectly white for a long time.

Price.....per lb. 9½

Steamship White Lead.

Put up in Kegs, 12½s, 25s, 50s, 100s and 250s.

Our Steamship White Lead is especially prepared for marine use, and is in all respects the best Lead in the market for that purpose. It will be found to be very white, of good body and very durable. It is more finely ground than other leads and consequently will be found to be much more economical to use by reason of the increased surface it will cover. It is also especially prepared to resist the destructive action of the water which tends to decompose most leads so that they soon wash off.

Price.....per lb. 6½

Steamship Paint, High Grade Graphite.

Put up in 15, 55, and bbls.

The Graphite we use in the manufacture of our paint is the purest and best to be obtained. This paint we have been making for a number of years and with satisfactory results.

Price.....per gal. 70

Barge and Lighter Paint.

PAINT NO.	PRICE PER GAL.
2851	
2851	
2859	
2858	85
2860	
2854	

This paint is made according to well tried formulae and contains a proportion of Creosote, rendering it especially adapted for use on barges, lighters, etc., as it is not affected by salt water. It is well known that wood treated with Creosote is not subject to decay. This is entirely suitable for any other building material, such as iron, brick, etc.

Steamship Paint for Side Lights.

Signal Red.....per pkge. 20
Signal Green.....per pkge. 20

These are bright, handsome colors, put up in 1/4 pint packages, containing sufficient for painting the brackets that hold the side lights. The paint is ground in varnish and dries with a high gloss finish which makes it easy to wipe clean.

Steamship Varnishes.

Marine Varnish.

Net Price..... 2.50

Is made for general marine use. It's very durable and has a fine lustre. It will not turn white and retains its gloss. We strongly recommend it for all marine work for outside and inside use.

Durable Spar Varnish.

Net Price..... 3.25

This is the finest grade of varnish as possible to make. It will stand the severest exposure, and dries in about twelve hours with a handsome, durable gloss.

Kopal.

Net Price..... 2.00

This varnish is for general purposes, and is made for both inside and outside use. It is very durable and elastic. It is remarkably easy working, is excellent for outside doors, boats and other work, where good, tough varnish is necessary.

No. 1 Furniture.

Net Price..... 1.25

A reliable varnish for furniture and general inside use.

Confidential Price List

For confidential use of salesmen only.

Special prices to consumers of manufacturers goods.

"A" prices are bottom to largest buyers for the size package indicated.

"B" prices are for medium to large buyers.

Smaller buyers should always be sold at an advance of 10 to 25 per cent over "B" prices, depending on their consumption.

All prices named are *net and f. o. b. factory*.

Where necessary to sell goods delivered, freight must be added *from factory to delivery point*.

If necessary to make any concessions, write or wire your manager for instructions.

A REMINDER.

Always treat an order for advertising with as much care as you would an order for merchandise. It costs money and is to be given only after thoroughly understanding the wants and possibilities of the agency.

Always write out the order for advertising at the dealer's store. Do not wait till later or you will forget just what he wanted.

Never promise a display feature unless you know just when it will be placed.

Never send the large show cards or small folders unless the agent is handling the line represented.

Don't be too sparing with your supply. We want the agents to have all the advertising they can use to advantage, but we do not want them to have a supply to lay aside in dusty drawers to be wasted.

We would rather send a smaller supply at several different times than an equal amount at one time.

Much depends upon the spirit of the agent, if he is a good advertiser, or in your judgment can be made one, a more liberal allowance should be made.
