

C O P Y

9/24/28.

Ethyl Gas Corp.,

New York.

Gentlemen:

August 10th I spilled some Ethyl Gas on my leg while having my auto tank refilled.

Same caused an infection on my leg which caused me to lose two weeks time and was put to considerable expense.

I had in the past favored Ethyl Gas and would yet, but I am frank to admit I am afraid of it.

What would you suggest.

Respectfully,

C. J. Kahler
415 N. Orange St.,
Selinsgrove, Pa.

P.S. I am a Salesman and use considerable gas in my travels.
