Pittsburgh, Penna. 15230

Dear Mr. Janes:

Subject: Environmental Health Monitoring Manual

Thank you very much for the copy of the above valuable publication for which I am told you and your group are responsible. Of course neither our agency nor the writer are in any position to endorse specific publications, but I will say that I have heard many compliments about it from private industrial hygienist as well as official agency personnel who have examined it carefully.

I am a member of an Editorial Committee of ANSI Z 117.1, Safety Requirements for Working in Tanks and Other Confined Spaces which is, we hope, nearing final draft form after five years. The writer is proposing that your manual be added among the references under the General Testing Requirements Section.

Sincerely yours,

William E. Shoemaker
