Subject Review Process

Dear Kannan and Lin,

The last internal reviewer had a few minor changes that I have indicated in pink highlight in the attached. They were:

On lines 56-57, removal of the sentence beginning "Occurence...concern."

On line 64, add "cause"

On line 86, remove, "and the adverse health effects on neonates"

On line 94, change "hazard assessment" to "risk characterization"

On line 298, change "considerable" to "significant"

On line 305, change "Germany" to "German"

If you can confirm by email that these changes are acceptable and will be made in addition to the ones sent on the 24th, I can confirm that the internal review process is closed.

All the best,

John
