Dear Leon,

I am most grateful to you for your careful review of Kehoe manuscript.
I would be very grateful to you if you would explore the idea of a Supplement to Food and Chemical Toxicology. There is money available for such a supplement.

I phoned you earlier this week and found that you had just left for Seattle. I was very pleased to talk with Bertha and to know that you are doing so well.

Ida Blanche joins me in sending very good wishes.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Ray', with a long, sweeping horizontal line extending to the right.

Raymond R. Suskind, M.D.
