

General Offices

November 4, 1957

Mr. Pete Plummer

General Offices

Attached is a copy of the memo I sent to Phil Slayton after receiving a copy of his September 5 call report. I am sorry that I didn't send you a carbon.

In answer to your specific question on your attached copy of Phil's report, I am afraid we are "completely dead" on Hydraulic 150 approval.

Elmer P. Wheeler
