met me and took me to their two
plants*

Dear Mr. Grottanelli,

In accordance with my promise, I am sending you herewith a memorandum covering my observations and criticism of the Bussi plant, which I think may be of some use to you. If there are any questions which arise out of this memorandum I should appreciate it very much if you would address me directly in Cincinnati at the address which appears below.

Moreover, I should like to assure you that if there is anything I can do by a way of recommendation or persuasion to assist in improvement of the conditions of this plant, I should be pleased to do so.

Allow me to thank you most sincerely for your hospitality and courtesy during my trip to Italy, and I am also grateful to you for sending me the liqueur which we brought back from Bussi.

With kindest personal regards,

Sincerely yours,
