

1 that true?

2 A Yes, and all of the other gentlemen, too.

3 Q Dana Bishop came over from O-I?

4 A Yes, he was in the laboratory, Dr. Kalousek
5 was in the laboratory, and W.C. Taylor was actually in
6 the corporate offices in Toledo and came to the
7 laboratory frequently.

8 You missed a couple. There was O.W. Pfeifer
9 that came to O-I and John Pershing. Those people were
10 Mr. Shannon's and my teacher, because Owens-Corning
11 Fiberglas didn't know all of the information.

12 Q It is my understanding that happened in 1958
13 when Kaylo became yours, because all of those folks
14 just shifted right over and brought everything with
15 you to teach you all about Kaylo; is that right?

16 A They came over at that time and, of course,
17 all of the hourly people and the people at the plant
18 itself in Berlin became part of Owens-Corning.

19 Q Okay. So basically everything was shifted
20 over and changed by name only?

21 A That is right, it all shifted over, right.
