

Fluoropolymer Product Data

Go Back: Welcome to Ausimont / Our Products / Fluorinated Plastics /

Selecting a fluoropolymer material for any given application will involve a review of many factors. Some of which focus on the process conditions and others on the suitability of the material for that particular application. The following charts describe some of the factors to be considered when choosing a fluoropolymer. Please refer to the data on each product for more information, or contact your Ausimont representative for a technical discussion on which fluoropolymer will suit your needs.

Fluoropolymer Products
 Service Temperature versus Chemical Resistance

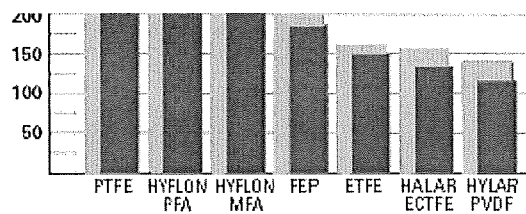

Experience Our Technology!

Fluorinated Plastics:

Hylar® PVDF
Halar® ECTFE
Hyflon® MFA & PFA
Algoflon® PTFE
Polymist® PTFE
Micronized Powders
Vatar® Modified ECTFE
